Middle East by one of the world's greatest authorities on the subject. In this immensely readable and wide-ranging book, Bernard Lewis charts the successive transformations of the Middle East beginning with the two great empires, the Roman and the Persian, and covering the growth of Christianity, the rise and spread of Islam, the waves of invaders from the east, the Mongol hordes of Jengiz Khan, the rise of the Ottoman Turks, and the changing balance of power between the Muslim and Christian worlds. This book is a masterpiece. Sir Anthony Parsons, Daily Telegraph

**Islam in History** Bernard Lewis, 2001. This collection of essays written by the foremost Western expert in Islamic studies gives essential background on present Middle Eastern conflicts with the West and how this religion from its first expansion to the exploits of Saddam Hussein has been fatefully involved with the Western world.

**The End of Modern History in the Middle East** Bernard Lewis, 2013-10-01. Bernard Lewis looks at the new era in the Middle East. With the departure of imperial powers, the region must now on its own resolve the political, economic, cultural, and societal problems that prevent it from accomplishing the next stage in the advance of civilization. There is enough in the traditional culture of Islam on the one hand and the modern experience of the Muslim peoples on the other, he explains, to provide the basis for an advance toward freedom in the true sense of that word.

**Islam and the West** Bernard Lewis, 1994-10-27. Bernard Lewis brings together in this volume eleven essays that open doors to the innermost domains of Islam. Lewis ranges far and wide in these essays. He includes long pieces such as his capsule history of the interaction in war and peace in commerce and culture between Europe and its Islamic neighbors, and shorter ones such as his deft study of the Arabic word *watan* and what its linguistic history reveals about the introduction of the idea of patriotism from the West. Offering valuable background to Middle East conflicts today, Islam and the West presents the reflections of an eminent authority on a little-understood region of the world.

**The United States and the Middle East** Bernard Lewis, 2002. *The Multiple Identities of the Middle East* Bernard Lewis, 1998. Most of the modern states of the Middle East are of recent origin, yet the region is the birthplace of three religions and many civilizations. Bernard Lewis, one of the world's most respected historians of the Middle East, discusses the countries and frontiers, their religions and communities, language and loyalties to place, and Middle Eastern perceptions of outsiders. He also considers the effect of alien ideas and influences, including liberalism, nationalism, fascism, socialism, and democracy.

**The Crisis of Islam** Bernard Lewis, 2003-03-25. In his first book since *What Went Wrong*, Bernard Lewis examines the historical roots of the resentments that dominate the Islamic world today and that are increasingly being expressed in acts of terrorism. He looks at the theological origins of political Islam and takes us through the rise of militant Islam in Iran, Egypt, and Saudi Arabia, examining the impact of radical Wahhabi proselytizing and Saudi oil money on the rest of the Islamic world. *The Crisis of Islam* ranges widely through thirteen centuries of history, but in particular it charts the key events of the twentieth century leading up to the violent confrontations of today: the creation of the state of Israel, the Cold War, the Iranian Revolution, the Soviet defeat in Afghanistan, the Gulf War, and the September 11th attacks on the United States. While hostility toward the

West has a long and varied history in the lands of Islam its current concentration on America is new So too is the cult of the suicide bomber Brilliantly disentangling the crosscurrents of Middle Eastern history from the rhetoric of its manipulators Bernard Lewis helps us understand the reasons for the increasingly dogmatic rejection of modernity by many in the Muslim world in favor of a return to a sacred past Based on his George Polk Award winning article for The New Yorker The Crisis of Islam is essential reading for anyone who wants to know what Usama bin Ladin represents and why his murderous message resonates so widely in the Islamic world *The Middle East and the West* Bernard Lewis,1964 **Race and Slavery in the Middle East** Bernard Lewis,1990 From before the days of Moses up through the 1960s slavery was a fact of life in the Middle East Pagans Jews Christians and Muslims bought and sold at the slave markets for millennia trading the human plunder of wars and slave raids that reached from the Russian steppes to the African jungles But if the Middle East was one of the last regions to renounce slavery how do we account for its and especially Islam s image of racial harmony How did these long years of slavery affect racial relations In *Race and Slavery in the Middle East* Bernard Lewis explores these questions and others examining the history of slavery in law social thought and practice over the last two millennia With 24 rare and intriguing full color illustrations this fascinating study describes the Middle East s culture of slavery and the evolution of racial prejudice Lewis demonstrates how nineteenth century Europeans mythologized the region as a racial utopia in debating American slavery Islam in fact clearly teaches non discrimination but Lewis shows that prejudice often won out over pious sentiments as he examines how Africans were treated depicted and thought of from antiquity to the twentieth century If my color were pink women would love me But the Lord has marred me with blackness lamented a black slave poet in Arabia over a millennium ago and Lewis deftly draws from these lines and others the nuances of racial relations over time Islam he finds restricted enslavement and greatly improved the lot of slaves who included until the early twentieth century some whites while blacks occasionally rose to power and renown But abuses ring throughout the written and visual record from the horrors of capture to the castration and high mortality which along with other causes have left few blacks in many Middle Eastern lands despite centuries of importing African slaves *Race and Slavery in the Middle East* illuminates the legacy of slavery in the region where it lasted longest from the days of warrior slaves and palace eunuchs and concubines to the final drive for abolition Illustrated with outstanding reproductions of striking artwork it casts a new light on this critical part of the world and on the nature and interrelation of slavery and racial prejudice **Middle East** Bernard Lewis,1998-02

**Arabs in History** Bernard Lewis,2002-03-14 Whoever lives in our country speaks our language is brought up in our culture and takes pride in our glory is one of us Thus ran a declaration of modern leaders of Arab states But what exactly is an Arab and what has been their place in the course of human history In this well established classic Professor Lewis examines the key issues of Arab development their identity the national revival which cemented the creation of the Islamic state and the social and economic pressures that destroyed the Arab kingdom and created the Islamic empire He analyses

the forces which contributed to that empire's eventual decline and the effects of growing Western influence. Today with the Arab world facing profound social and political challenges it constitutes an essential introduction to the Arabs and their history.

Faith and Power Bernard Lewis, 2010-05-05 Bernard Lewis is recognized around the globe as one of the leading authorities on Islam. Hailed as the world's foremost Islamic scholar by *Wall Street Journal* as a towering figure among experts on the culture and religion of the Muslim world by *Baltimore Sun* and as the doyen of Middle Eastern studies by *New York Times*, Lewis is nothing less than a national treasure, a trusted voice that politicians, journalists, historians, and the general public have all turned to for insight into the Middle East. Now Lewis has brought together writings on religion and government in the Middle East so different than in the Western world. The collection includes previously unpublished writings, English originals of articles published before only in foreign languages, and an introduction to the book by Lewis. Acclaim for *What Went Wrong*, a *New York Times* Bestseller, replete with the exceptional historical insight that one has come to expect from the world's foremost Islamic scholar, Karen Elliott House, *Wall Street Journal*. Lewis has done us all, Muslim and non-Muslim alike, a remarkable service. The book's great strength and its claim upon our attention is that it offers a long view in the midst of so much short-term and confusing punditry on television, in the op-ed pages on campuses, and in strategic studies think tanks. Paul Kennedy, *The New York Times Book Review*. Acclaim for *From Babel to Dragomans*, Lewis has long been considered the West's leading interpreter of Mideast culture and history, and this collection only solidifies his reputation. *National Review*. For more than four decades, Lewis has been one of the most respected scholars and prolific writers on the history and politics of the Middle East. In this compilation of more than 50 journal articles and essays, he displays the full range of his eloquence, knowledge, and insight regarding this pivotal and volatile region.

Booklist *The Shaping of the Modern Middle East* Bernard Lewis, 1994-02-17 With this major revision of his classic *The Middle East and the West* (1964), a leading Middle East historian of our time offers a definitive and now more timely than ever history of Western Middle Eastern relations from the late seventeenth century to the present day. Fully revised to cover the volatile developments of the last three decades, *The Shaping of the Modern Middle East* sheds light on the climax and sudden end of the cold war, the disintegration of the Soviet Union, the Arab-Israeli wars, the formation and activities of the Palestinian Liberation Organization, the Egyptian-Israeli peace treaty, the Persian Gulf War, and the Iranian revolution. Illuminating the region's geography, culture, history, language, and religion, Lewis explores the complex and often confusing issues of Arab nationalism, Islamic fundamentalism, and responses and reactions in the Middle East to centuries of Western influence, revealing the subtlety and sophistication of this dynamic civilization as no other scholar can.
