The Coffee Exporters Guide Third Edition:

The Coffee Exporter's Guide Hein Jan Van Hilten, 2011 **Coffee**, 1992 **The Coffee Exporter's Guide**, 2011 This publication is the world's most extensive hands-on and neutral source of information on international trade of coffee. It covers trade issues relevant to coffee growers, traders, exporters, transportation companies, certifiers, associations, authorities, and others in coffee-producing countries. This third edition marks the 20th anniversary of this popular guide. It includes new material on climate change, the role of women in the coffee sector, and comparison of sustainability schemes.

Power and Everyday Practices, Second Edition Deborah Brock, Aryn Martin, Rebecca Raby, Mark Thomas, 2019-08-22 This unique and innovative text provides undergraduate students with tools to think sociologically through the lens of everyday life. Normative social organization and taken-for-granted beliefs and actions are exposed as key mechanisms of power and social inequality in western societies today. By unpacking the centre, students are encouraged to turn their social worlds inside out and explore alternatives to the dominant social order. The text is divided into three parts. In Part One, students learn how to use theory and methodology which are blended seamlessly throughout the text. It shows how to position Michel Foucault as a companion to theorists such as Karl Marx and Stuart Hall while signaling the importance of non-western and Indigenous knowledges, experiences, and rights. In Part Two, students explore and challenge normativity: the normal body, heterosexuality, whiteness, the two-gender system, aging, and the under side of citizenship. In Part Three, shorter chapters critique everyday practices such as thinking scientifically, practicing self-help, going shopping, managing money, buying coffee, being a tourist, and marginalizing Indigeneity. Each chapter includes intriguing exercises, study questions, and key terms that link to the volume's comprehensive glossary. Instructors are provided PowerPoint slides, test banks, and multimodal supplementary resources that make the book adaptable to blended and online learning environments. Essay-style lectures are also available to accompany the textbook.

The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025 and into a leading manufacturing hub in Africa. The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in

1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

Is Fairtrade Fair? E. Valiente-Riedl, 2012-12-03 Evaluates the capacity of Fairtrade labeling to enhance the livelihoods of marginalized producers in developing countries It looks critically at the evolution of fair trade values and markets including its somewhat controversial engagement with conventional businesses and problematizes the role of the ethical consumer

TASTE Andrea Pavoni, Danilo Mandic, Caterina Nirta, Andreas Philippopoulos-Mihalopoulos, 2018-07-25 Taste usually occupies the bottom of the sensorial hierarchy as the quintessentially hedonistic sense too close to the animal the elemental and the corporeal and for this reason disciplined and moralised At the same time taste is indissolubly tied to knowledge To taste is to discriminate emit judgement enter an unstable domain of synaesthetic normativity where the certainty of metaphysical categories begins to crumble This second title in the Law and the Senses series explores law using taste as a conceptual and ontological category able to unsettle legal certainties and a promising tool whereby to investigate the materiality of law s relation to the world For what else is law s reduction of the world into legal categories if not law s ingesting the world by tasting it and emitting moral and legal judgements accordingly Through various topics including coffee wine craft cider and Japanese knotweed this volume explores the normativities that shape the way taste is felt and categorised within and beyond subjective phenomenological and human dimensions The result is an original interdisciplinary volume complete with seven speculative recipes dedicated to a rarely explored intersection with contributions from artists legal academics philosophers anthropologists and sociologists
