## **The Coming Of The Third Reich:**

**The Coming of the Third Reich** Richard J. Evans, 2004 A history of Adolf Hitler's rise to power and the collapse of democracy in Nazi Germany explains why Nazism's ideology of hatred flourished in a country embittered by military defeat and economic disaster following World War I

**The Coming of the Third Reich** Richard J. Evans, 2005-01-25 The definitive account of Hitler's rise to power and the collapse of civilization in Nazi Germany from the author of *The Third Reich in Power*, *The Third Reich at War* and *Hitler's People* The clearest and most gripping account I've read of German life before and during the rise of the Nazis A S Byatt *Times Literary Supplement* Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen *The Washington Post* There is no story in twentieth century history more important to understand than Hitler's rise to power and the collapse of civilization in Nazi Germany With *The Coming of the Third Reich* Richard J. Evans one of the world's most distinguished historians has written the definitive account for our time A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur *The Coming of the Third Reich* is a masterwork of the historian's art and the book by which all others on the subject will be judged

**The Third Reich in Power** Richard J. Evans, 2006-09-26 The acclaimed and comprehensive account of Germany's transformation under Hitler's total rule and the inexorable march to war by the author of *The Coming of the Third Reich*, *The Third Reich at War* and *Hitler's People* Evans's three volume history is shaping up to be a masterpiece Fluidly narrated tightly organized and comprehensive *The New York Times* Mr Evans's magisterial study should be on our shelves for a long time to come *The Economist* By the middle of 1933 the democracy of the Weimar Republic had been transformed into the police state of the Third Reich mobilized around the cult of the leader Adolf Hitler In *The Third Reich in Power* Richard J. Evans chronicles the incredible story of Germany's radical reshaping under Nazi rule As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939 This is the fullest and most authoritative account yet written of how in six years Germany was brought to the edge of that terrible abyss

**The Third Reich at War** Richard J. Evans, 2009-03-19 An absorbing revelatory and definitive account of one of the greatest tragedies in human history by the author of *The Coming of the Third Reich*, *The Third Reich in Power* and *Hitler's People* This is history in the grand style the kind of large scale narrative that few historians dare to write these days It is difficult to imagine how it could be improved upon let alone surpassed *The Washington Post* This superb book is not simply a military history it is a comprehensive portrait of a society at war A masterpiece of historical research and analysis Likely to remain the best study of the Third Reich at war for many years to come *The Christian Science*

Monitor Adroitly blending narrative description and analysis Richard J Evans portrays a society rushing headlong to self destruction and taking much of Europe with it Interweaving a broad narrative of the war s progress from a wide range of people Evans reveals the dynamics of a society plunged into war at every level The great battles and events of the conflict are here but just as telling is Evans s re creation of the daily experience of ordinary Germans in wartime At the center of the book is the Nazi extermination of the Jews The Third Reich at War lays bare the most momentous and tragic years of the Nazi regime

**Third Reich Trilogy** Richard J. Evans, 2008-10-02 In 1900 Germany was generally viewed as one of the world s most progressive dynamic and impressive nations Ceaselessly inventive in many ways at the cutting edge of social and welfare reform Germany was the one country in Europe to rival the United States as a beacon for future growth and change Its political culture was not noticeably more rooted in the past than that of such rivals as Britain or Russia Anti semitism was no more widespread than in many other countries representative institutions were thriving political parties and elections an accepted part of constitutional practice Richard J Evans here unfolds perhaps the single most important story of the twentieth century how in less than a lifetime this stable and modern country led Europe into moral physical and cultural ruin and despair It is a terrible story not least because as Evans makes abundantly clear there were so many other ways in which Germany s history could have played out The seeds of the Third Reich s rise to power may have been sown in Bismarck s Germany but it required a devastating sequence of events before they were reaped in the Nazi seizure of control with which Evans ends his sweeping and dramatic narrative The Coming of the Third Reich forces us to reassess our view of the rise of Nazis in Germany With tremendous authority skill and compassion Evans re creates a country torn apart by overwhelming economic political and social blows the First World War Versailles hyperinflation and the Great Depression One by one these disasters ruined or pushed aside almost everything admirable about Germany leaving the way clear for a truly horrifying ideology to take command The consequences of this assault would change the world in ways that we will always have to live with

The Third Reich in History and Memory Richard J. Evans, 2015-02-20 In the seventy years since the demise of the Third Reich there has been a significant transformation in the ways in which the modern world understands Nazism In this brilliant and eye opening collection Richard J Evans the acclaimed author of the Third Reich trilogy offers a critical commentary on that transformation exploring how major changes in perspective have informed research and writing on the Third Reich in recent years Drawing on his most notable writings from the last two decades Evans reveals the shifting perspectives on Nazism s rise to political power its economic intricacies and its subterranean extension into postwar Germany Evans considers how the Third Reich is increasingly viewed in a broader international context as part of the age of imperialism discusses the growing emphasis on the larger economic and cultural circumstances of the era and emphasizes the development of research into Nazi society particularly in the understanding of Nazi Germany as a political system based on popular approval and consent Exploring the complex relationship between memory and history Evans also points out the

places where the growing need to confront the misdeeds of Nazism and expose the complicity of those who participated has led to crude and sweeping condemnation when instead historians should be making careful distinctions. Written with Evans' sharp-eyed insight and characteristically compelling style, these essays offer a summation of the collective cultural memory of Nazism in the present and suggest the degree to which memory must be subjected to the close scrutiny of history.

**The Third Reich Almanac** James Taylor, Warren Shaw, 1987

**Hitler's People** Richard J. Evans, 2024-08-13. Named a Best Book of the Year by Kirkus Reviews and Air Mail. A fascinating and instructive book elegantly written and perceptive. *Wall Street Journal* Kaleidoscopic. A fascinating exploration of individual agency that never loses sight of the larger context. Just the kind of probing, nuanced, and unsparing study to help us think things through. *The New York Times*. Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated out from Hitler to the inner and outer circles of the regime's leadership, one of our greatest historians answers the enduring question: how does a society come to carry out a program of unspeakable evil? Richard J. Evans, author of the acclaimed *The Third Reich Trilogy* and over two dozen other volumes on modern Europe, is our preeminent scholar of Nazi Germany. Having spent half a century searching for the truths behind one of the most horrifying episodes in human history, in *Hitler's People*, he brings us back to the original site of the Nazi movement: namely, the lives of its most important members. Working in concentric circles out from Hitler and his closest allies, Evans forms a typological framework of Germany's society under Nazi rule from the top down. With a novelist's eye for detail, Evans explains the Third Reich through the personal failings and professional ambitions of its members, from its most notorious deputies like Goebbels, the regime's propagandist, and Himmler, the Holocaust's chief architect, to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten, like the schoolteacher Julius Streicher and the actress Leni Riefenstahl. Drawing on a wealth of recently unearthed historical sources, *Hitler's People* lays bare the inner and outer lives of the characters whose choices led to the deaths of millions. Nearly a century after Hitler's rise, the leading nations of the West are once again being torn apart by a will to power. By telling the stories of these infamous lives as human lives, Evans asks us to grapple with the complicated nature of complicity, showing us that the distinctions between individual and collective responsibility, and even between pathological evil and rational choice, are never easily drawn.

**The Downfall of the Weimar Democracy** Demir Tuncer, 2013-05-07. Research Paper, postgraduate from the year 2009, in the subject History of Germany National Socialism World War II grade A. Bosphorus University, language English, abstract. An scholarly examination of the factors that led to Adolf Hitler's capture of power in 1933 and subsequently to the downfall of the Weimar Republic.
