The Power of Deterrence Amir Lupovici, 2016-09-01 Why do states persist in using force to enhance their deterrent posture even though it is not clear that it is effective This book develops an innovative framework to answer this question viewing deterrence as an idea This allows the author to explain how countries institutionalize deterrence strategy and how this internalization affects policy He argues that the US and Israel have both internalized deterrence ideas and become attached to these practices For them deterrence is not just a means to advance physical security but it constitutes their very selves as deterring actors As a result being unable to deter becomes a threat to their identity evoking strong emotional responses In recognizing these dynamics the book provides a

fresh perspective on the US war in Iraq 2003 and the Israeli war in Lebanon 2006 both of which can be seen as attempts to repair each country's shaken sense of self

Undocumented Storytellers Sarah C. Bishop, 2018-12-03. *Undocumented Storytellers* offers a critical exploration of the ways undocumented immigrant activists harness the power of storytelling to mitigate the fear and uncertainty of life without legal status and to advocate for immigration reform. Sarah C. Bishop chronicles the ways young people uncover their lack of legal status experientially through interactions with parents in attempts to pursue rites of passage reserved for citizens and as audiences of political and popular media. She provides both theoretical and pragmatic contextualization as activist narrators recount the experiences that influenced their decisions to cultivate public voices. Bishop draws from a mixed methodology of in-depth interviews with undocumented immigrants from eighteen unique nations of origin, critical rhetorical ethnographies of immigrant rights events and protests, and narrative analysis of immigrant-produced digital media to interrogate the power and limitations of narrative activism. Autobiographical immigrant storytelling refutes mainstream discourse on immigration and reveals the determination of individuals who elsewhere have been vilified by stereotype and

presupposition Offering an unparalleled view into the ways immigrants stories appear online Bishop illuminates digital narrative strategies by detailing how undocumented storytellers reframe their messages when stories have unintended consequences The resulting work provides broad insights into the role of strategic framing and autobiographical story sharing in advocacy and social movements
