,1996 **The British National Bibliography** Arthur James Wells,2004 **Boundary Value Problems** David L. Powers,1999 **Boundary Value Problems** Fourth Edition continues to be the leading text on boundary value problems and Fourier series The author David Powers has written a thorough theoretical overview of solving partial differential equations by the methods of separation of variables The text is comprised of five comprehensive parts which include a prerequisite summary of ordinary differential equations Fourier series and solving linear partial differential equations by separation of variable methods by Laplace transform methods and by numerical methods Professors and students agree that the author is a master at creating linear problems that adroitly illustrate the techniques of separation of variables used to solve science and engineering problems Modeling with Differential Equations in Chemical Engineering Stanley M. Walas,1991 Modelling with Differential Equations in Chemical Engineering covers the modelling of rate processes of engineering in terms of differential equations While it includes the purely mathematical aspects of the solution of differential equations the main emphasis is on the derivation and solution of major equations of engineering and applied science Methods of solving differential equations by analytical and numerical means are presented in detail with many solved examples and problems for solution by the reader Emphasis is placed on numerical and computer methods of solution A key chapter in the book is devoted to the principles of mathematical modelling These principles are applied to the equations in important engineering areas The major disciplines covered are thermodynamics diffusion and mass transfer heat transfer fluid dynamics chemical reactions and automatic control These topics are of particular value to chemical engineers but also are of interest to mechanical civil and environmental engineers as well as applied scientists The material is also suitable for undergraduate and beginning graduate students as well as for review by practising engineers *Scientific and Technical Books and Serials in Print* ,1984 **American Book Publishing Record** ,2004 Whitaker's Book List ,1991 Books in Print ,1994 *Whitaker's Cumulative Book List* ,1984 **Forthcoming Books** Rose Army,2004 *Answers and Solutions for Advanced Engineering Mathematics* Peter V.
