**Convergent Journalism** Woody Bing Liu, 2021-06-28 Convergent Journalism is an online news system that uses a range of media and methods to collect and present information. With the advent and growth of the Internet, this form of news has been flourishing globally and has become the mainstream in China. In 2014, the Chinese Government established media convergence as a national strategy. This book offers a panoramic view of the theories and practice of Convergent Journalism in a Chinese media landscape. Drawing on a plethora of cases, the author introduces concepts, subjects, and processes and elaborates on media components including text, visuals, audio, and video. In addition, he discusses the application of search engine optimization, hyperlinks in reporting, user interaction, and user creation of content. Aside from providing an in-depth theoretical analysis, the book provides much guidance for practitioners. *Broadcast News and Writing Stylebook -- Pearson eText*  
Robert A. Papper, 2015-07-22 Updated in its 5th edition, Papper's *Broadcast News and Writing Stylebook* is the first and most widely used handbook in broadcast news. This book clearly and concisely outlines the rules of broadcast news writing, reporting, grammar, style, and usage. With chapter-by-chapter coverage of story types from business stories to crime and legal reporting, education, government, health, the environment, weather, and sports, the *Broadcast News and Writing Stylebook* lays out the particular demands of composition, form, style, and usage in all the diverse areas of broadcast news. Because the news business has changed and continues to evolve, so has this text. Written by the person who has overseen the major industry research for the past 18 years, the latest edition looks into the future of news by exploring the business of news. Citing the latest data and trends, the book takes a hard look at where the industry stands and where it appears to be headed.

Cultural Meanings of News Daniel A. Berkowitz, 2011 What is news? Why does news turn out like it does? What factors influence the creation, production, and dissemination of news? *Cultural Meanings of News* takes on these deceptively simple questions through an essential collection of seminal and contemporary studies by leaders in the fields of mass communication and media studies. Similar in format and purpose to editor Dan Berkowitz's award-winning *Social Meanings of News*, this new volume represents a conceptual update, a continuation of the discourse about the nature of news and how it comes to be. Moving ideas ahead from the earlier tradition of sociological approaches to the more pervasive cultural perspectives that inform understandings about news, *Cultural Meanings of News* provides a carefully selected set of readings organized into thematic areas that each probe a dimension of the literature from sociological roots to cultural perspectives: news as narrative and cultural text, newswork as cultural ritual, news as cultural myth, news and its interpretive communities, news as a source and reflection of collective memory, and toward the future of news research. This text reader provides students and scholars with first-hand exposure to cultural approaches to the study of news while also providing an organizing framework for understanding the commonalities and differences between threads in the research. The goals are to engage readers.

through guided immersion in the material
