Automated Blood Cancer Detection Using Image Processing:

Proceedings of International Conference on AI Systems and Sustainable Technologies Anubha Jain,Zdzislaw Polkowski,Rosalina Babo,Navneet Sharma,2025-12-02 This book includes high quality research papers presented at the International Conference on AI Systems and Sustainable Technologies ASSET 2025 organized by the Department of Computer Science and Information Technology School of CS and IT at IIS deemed to be University Jaipur India during 28 29 March 2025 It covers the state of the art in AI and ML applications across diverse domains It also discusses interdisciplinary research integrating AI with sustainable technologies in energy agriculture health and climate resilience

Tracking and Preventing Diseases with Artificial Intelligence Mayuri Mehta,Philippe Fournier-Viger,Maulika Patel,Jerry Chun-Wei Lin,2021-07-14 This book presents an overview of how machine learning and data mining techniques are used for tracking and preventing diseases It covers several aspects such as stress level identification of a person from his her speech automatic diagnosis of disease from X ray images intelligent diagnosis of Glaucoma from clinical eye examination data prediction of protein coding genes from big genome data disease detection through microscopic analysis of blood cells information retrieval from electronic medical record using named entity recognition approaches and prediction of drug target interactions The book is suitable for computer scientists having a bachelor degree in computer science The book is an ideal resource as a reference book for teaching a graduate course on AI for Medicine or AI for Health care Researchers working in the multidisciplinary areas use this book to discover the current developments Besides its use in academia this book provides enough details about the state of the art algorithms addressing various biomedical domains so that it could be used by industry practitioners who want to implement AI techniques to analyze the diseases Medical institutions use this book as reference material and give tutorials to medical experts on how the advanced AI and ML techniques contribute to the diagnosis and prediction of the diseases

Mobile Devices and Smart Gadgets in Medical Sciences Umair, Sajid,2020-02-21 Each day new applications and methods are developed for utilizing technology in the field of medical sciences both as diagnostic tools and as methods for patients to access their medical information through their personal gadgets However the maximum potential for the application of new technologies within the medical field has not yet been realized Mobile Devices and Smart Gadgets in Medical Sciences is a pivotal reference source that explores different mobile applications tools software and smart gadgets and their applications within the field of healthcare Covering a wide range of topics such as artificial intelligence telemedicine and oncology this book is ideally designed for medical practitioners mobile application developers technology developers software experts computer engineers programmers ICT innovators policymakers researchers academicians and students

Proceedings of the International Conference on ISMAC in Computational Vision and Bio-Engineering 2018 (ISMAL-CVB) Durai Pandian,Xavier Fernando,Zubair Baig,Fuqian Shi,2019-01-01 These are the proceedings of the International Conference on ISMAC CVB held in Palladam India in May

2018 The book focuses on research to design new analysis paradigms and computational solutions for quantification of information provided by object recognition scene understanding of computer vision and different algorithms like convolutional neural networks to allow computers to recognize and detect objects in images with unprecedented accuracy and to even understand the relationships between them The proceedings treat the convergence of ISMAC in Computational Vision and Bioengineering technology and includes ideas and techniques like 3D sensing human visual perception scene understanding human motion detection and analysis visualization and graphical data presentation and a very wide range of sensor modalities in terms of surveillance wearable applications home automation etc ISMAC CVB is a forum for leading academic scientists researchers and research scholars to exchange and share their experiences and research results about all aspects of computational vision and bioengineering

Data Science and Big Data Analytics Durgesh Mishra,Xin She Yang,Aynur Unal,Dharm Singh Jat,2025-09-26 This book features high quality research papers presented at the Fifth International Conference on Data Science and Big Data Analytics IDBA 2025 organized by Symbiosis University of Applied Sciences Indore India in association with ACM and IEEE Computer Society in hybrid mode during June 27 28 2025 This book discusses topics such as data science artificial intelligence machine learning quantum computing big data and cloud security computation security big data security information security forecasting data analytics mathematics for data science graph theory and application in data science data visualization computer vision and analytics for social networks

Fog, Edge, and Pervasive Computing in Intelligent IoT Driven Applications Deepak Gupta,Aditya Khamparia,2020-12-08 A practical guide to the design implementation evaluation and deployment of emerging technologies for intelligent IoT applications With the rapid development in artificially intelligent and hybrid technologies IoT edge fog driven and pervasive computing techniques are becoming important parts of our daily lives This book focuses on recent advances roles and benefits of these technologies describing the latest intelligent systems from a practical point of view Fog Edge and Pervasive Computing in Intelligent IoT Driven Applications is also valuable for engineers and professionals trying to solve practical economic or technical problems With a uniquely practical approach spanning multiple fields of interest contributors cover theory applications and design methodologies for intelligent systems These technologies are rapidly transforming engineering industry and agriculture by enabling real time processing of data via computational resource oriented metaheuristics and machine learning algorithms As edge fog computing and associated technologies are implemented far and wide we are now able to solve previously intractable problems With chapters contributed by experts in the field this book Describes Machine Learning frameworks and algorithms for edge fog and pervasive computing Considers probabilistic storage systems and proven optimization techniques for intelligent IoT Covers 5G edge network slicing and virtual network systems that utilize new networking capacity Explores resource provisioning and bandwidth allocation for edge fog and pervasive mobile applications Presents emerging applications of intelligent IoT including smart farming factory automation

marketing automation medical diagnosis and more Researchers graduate students and practitioners working in the intelligent systems domain will appreciate this book's practical orientation and comprehensive coverage Intelligent IoT is revolutionizing every industry and field today and Fog Edge and Pervasive Computing in Intelligent IoT Driven Applications provides the background orientation and inspiration needed to begin Computational Intelligence for Oncology and Neurological Disorders Mrutyunjaya Panda, Ajith Abraham, Biju Gopi, Reuel Ajith, 2024-07-15 With the advent of computational intelligence based approaches such as bio inspired techniques and the availability of clinical data from various complex experiments medical consultants researchers neurologists and oncologists there is huge scope for CI based applications in medical oncology and neurological disorders This book focuses on interdisciplinary research in this field bringing together medical practitioners dealing with neurological disorders and medical oncology along with CI investigators The book collects high quality original contributions containing the latest developments or applications of practical use and value presenting interdisciplinary research and review articles in the field of intelligent systems for computational oncology and neurological disorders Drawing from work across computer science physics mathematics medical science psychology cognitive science oncology and neurobiology among others it combines theoretical applied computational experimental and clinical research It will be of great interest to any neurology or oncology researchers focused on computational approaches **Innovative Computing and Communications** Aboul Ella Hassanien, Sameer Anand, Ajay Jaiswal, Prabhat Kumar, 2026-03-06 This book includes high quality research papers presented at the Eighth International Conference on Innovative Computing and Communication ICICC 2025 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on 14 15 February 2025 Introducing the innovative works of scientists professors research scholars students and industrial experts in the field of computing and communication the book promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real time applications Researches of the Electrotechnical Laboratory, 1984 **Handbook of Pattern Recognition and Image Processing** Tzay Y. Young, King Sun Fu, 1986-04-28 This practical handbook provides a broad overview of the major elements of pattern recognition and image processing PRIP Currently the only handbook in the field it is designed as a source of quick answers for those interested in the theoretical development and practical applications of PRIP techniques Twenty years of research development and innovations in applications are documented in this comprehensive work Written by leading researchers in the field chapters deal with statistical and syntactic pattern recognition feature selection and extraction cluster analysis image enhancement and restoration shapes texture and motion computer vision computer systems and architectures for image processing and various industrial and biomedical applications Engineers computer scientists other professionals and students interested in applying PRIP techniques will find the Handbook of Pattern Recognition and Image Processing to be an invaluable reference source **First International Conference on Image Management and Communication in**
