Wikipedia @ 20 Joseph Reagle, Jackie Koerner, 2020-10-13 Wikipedia's first twenty years how what began as an experiment in collaboration became the world's most popular reference work We have been looking things up in Wikipedia for twenty years What began almost by accident a wiki attached to an nascent online encyclopedia has become the world's most popular reference work Regarded at first as the scholarly equivalent of a Big Mac Wikipedia is now known for its reliable sourcing and as a bastion of mostly reasoned interaction How has Wikipedia built on a model of radical collaboration remained true to its original mission of free access to the sum of all human knowledge when other tech phenomena have devolved into advertising platforms In this book scholars activists and volunteers reflect on Wikipedia's first twenty years revealing connections across disciplines and borders languages and data the professional and personal The contributors consider Wikipedia's history the richness of the connections that underpin it and its founding vision Their essays look at among other things the shift from bewilderment to respect in press coverage of Wikipedia Wikipedia as the most important laboratory for social scientific and computing research in history and the acknowledgment that free access includes not just access to the material but freedom to contribute that the summation of all human knowledge is biased by who documents it Contributors Phoebe Ayers Omer Benjakob Yochai Benkler William Beutler Siko Bouterse Rebecca Thorndike Breeze Amy Carleton Robert Cummings LiAnna L Davis Si n Evans Heather Ford Stephen Harrison Heather Hart Benjamin Mako Hill Dariusz Jemielniak Brian Keegan Jackie Koerner Alexandria Lockett Jacqueline Mabey Katherine Maher Michael Mandiberg Stephane Coillet Matillon Cecelia A Musselman Eliza Myrie Jake Orlowitz Ian A Ramjohn Joseph Reagle Anasuya Sengupta Aaron Shaw Melissa Tamani Jina Valentine Matthew Vetter Adele Vrana Denny Vrande i **Geographies of Digital**

Exclusion Mark Graham, Martin Dittus, 2022-01-20 Today's urban environments are layered with data and algorithms that fundamentally shape how we perceive and move through space But are our digitally dense environments continuing to amplify inequalities rather than alleviate them This book looks at the key contours of information inequality and who what and where gets left out Platforms like Google Maps and Wikipedia have become important gateways to understanding the world and yet they are characterised by significant gaps and biases often driven by processes of exclusion As a result their digital augmentations tend to be refractions rather than reflections they highlight only some facets of the world at the expense of others This doesn't mean that more equitable futures aren't possible By outlining the mechanisms through which our digital and material worlds intersect the authors conclude with a roadmap for what alternative digital geographies might look like *Mediatization and Sociolinguistic Change* Jannis Androutsopoulos, 2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change one of the most contested issues in contemporary sociolinguistics Its 17 chapters and five section commentaries present cutting edge research from variationist and interactional sociolinguistics media linguistics language ideology research and minority language studies The volume advances our understanding of

linguistic change in a mediatized world in three ways First it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change Second it takes the discussion beyond the notions of influence and effect and the binary distinction of media vs community language Third it examines the relation of sociolinguistic change and mediatization and from five complementary viewpoints media influence on linguistic structure media engagement in interaction change in mass and new media language language ideological change and the role of media for minority languages Bringing these strands of sociolinguistic scholarship together this volume examines their shared references and common lines of thinking

The Oxford Handbook of Language Policy and Planning James W. Tollefson, Miguel Pérez-Milans, 2018-05-07 This Handbook provides a state of the art account of research in language policy and planning LPP Through a critical examination of LPP the Handbook offers new direction for a field in theoretical and

methodological turmoil as a result of the socio economic institutional and discursive processes of change taking place under the conditions of Late Modernity Late Modernity refers to the widespread processes of late capitalism leading to the selective privatization of services including education the information revolution associated with rapidly changing statuses and functions of languages the weakening of the institutions of nation states along with the strengthening of non state actors and the fragmentation of overlapping and competing identities associated with new complexities of language identity relations and new forms of multilingual language use As an academic discipline in the social sciences LPP is fraught with tensions between these processes of change and the still powerful ideological framework of modern nationalism It is an exciting and energizing time for LPP research This Handbook propels the field forward offering a dialogue between the two major historical trends in LPP associated with the processes of Modernity and Late Modernity the focus on continuity behind the institutional policies of the modern nation state and the attention to local processes of uncertainty and instability across different settings resulting from processes of change The Handbook takes great strides toward overcoming the long standing division between top down and bottom up analysis in LPP research setting the stage for theoretical and methodological innovation Part I defines alternative theoretical and conceptual frameworks in LPP emphasizing developments since the ethnographic turn including ethnography in LPP historical discursive approaches ethics normative theorizing and transdisciplinary methods and the renewed focus on socio economic class Part II examines LPP against the background of influential ideas about language shaped by the institutions of the nation state with close attention to the social position of minority languages and specific communities facing profound language policy challenges Part III investigates the turmoil and tensions that currently characterize LPP research under conditions of Late Modernity Finally Part IV presents an integrative summary and directions for future LPP research

Constructing Identities Antonio Medina-Rivera, Lee

Wilberschied, 2013-07-26 The basic concern of border studies is to examine and analyze interactions that occur when two groups come into contact with one another Acculturation and globalization are at the heart of border studies and cultural studies scholars try to describe the possible interactions in terms of conflicts and resolutions that become the result of those possible encounters The present book is a peer reviewed selection of papers presented during the IV Crossing Over Symposium at Cleveland State University held in October 2011 and it is a follow up to our discussion on border studies The main focus of this volume is historical inter national gender and racial borders and the implications that all of them have in the construction of an identity
