Media & Culture with 2015 Update Richard Campbell, Christopher R. Martin, Bettina Fabos, 2014-03-31. The media are in a constant state of change accelerated by the recent turn in digital technology. The new 2015 update of *Media and Culture* keeps up with the newest changes unfolding over YouTube, Twitter, Facebook and other feeds because the speed of today's media stories requires an understanding of the complex connections between media and our culture. The 2015 update includes the latest media developments and coverage of the political, economic and cultural issues affecting our mass media and culture. But the authors go beyond the addition of current events and trends to focus on what these changes mean, extending the bridge between media history and the media right now.

Converging Media John Vernon Pavlik, Shawn McIntosh, 2004. *Converging Media* reflects the fundamental changes that digital technologies have made in the way people get their news and entertainment and conduct media commerce. The book does not contend that every media product such as newspapers, magazines or books are or ever will become digital. Rather, *Converging Media* proposes that the majority of the process of mass communication is or is becoming digital. Publisher description.
