*Aesthetic Hybridity in Mughal Painting, 1526-1658* Valerie Gonzalez, 2016-03-03 The first specialized critical aesthetic study to be published on the concept of hybridity in early Mughal painting this book investigates the workings of the diverse creative forces that led to the formation of a unique Mughal pictorial language Mughal pictoriality distinguishes itself from the Persianate models through the rationalization of the picture s conceptual structure and other visual modes of expression involving the aesthetic concept of mimesis If the stylistic and iconographic results of this transformational process have been well identified and evidenced their hermeneutic interpretation greatly suffers from the neglect of a methodologically updated investigation of the images conceptual underpinning Valerie Gonzalez addresses this lacuna by exploring the operations of cross fertilization at the level of imagistic conceptualization resulting from the multifaceted encounter between the local legacy of Indo Persianate book art the freshly imported Persian models to Mughal India after 1555 and the influx of European art at the Mughal court in the sixteenth and seventeenth centuries The author s close examination of the visuality metaphysical order and aesthetic language of Mughal imagery and portraiture sheds new light on this particular aspect of its aesthetic hybridity which is usually approached monolithically as a historical phenomenon of cross cultural interaction That approach fails to consider specific parameters and features inherent to the artistic practice such as the differences between doxis and praxis conceptualization and realization intentionality and what lies beyond it By studying the distinct phases and principles of hybridization between the variegated pictorial sources at work in the Mughal creative process at the successive levels of the project intention the practice realization and the result product the author deciphers the modalities of appropriation and manipulation of the heterogeneous elements Her unique *The national question* Ramón Pineda Gómez, 2023-11-29 Before the rise of republics relations between communities were religious and military power based on the rights of the gods and spiritual warfare The Sublime Powers Granted to the Elect of the Deities With the appearance of the Republics and the Free Man International Relations as we know them today began the interaction between the National States with equal culture or legal society independence and sovereignty The right to war disappears no Republic establishes the law of war to destroy another nation The world of nations originated and consolidated in the American continent during

the seventeenth and eighteenth centuries For the other continents the process began in Europe s First World War and extended to Asia and Africa during the Second World War and the Cold War But even today religious empires defend themselves by creating wars within republics and supported by monarchies and spiritual states Freedom of worship is established in the Republics to end servitude no more servants of religion who persecute condemn and subjugate peoples in the name of the gods Faith ceases to be an obligation and becomes an option In the Republic you can be an atheist during work hours a worshipper of Venus at lunch a priest of Bacchus and Morpheus at night and a worshipper of Hu tzil p chtli during a sporting event and no civil authority can judge you for changing religion or prioritizing science over mythologies In contrast to natural rights republics establish citizen and social rights with Constitutions Nature does not grant any rights The creation of the Free Man in the American continent gave good results that inspired European intelligence to create great cosmogonies such as Marxism and liberalism But religious empires remain a factor of control and domination they have no legal personality do not pay taxes have their own rules and demand tribute from their faithful
