The Power of Perception Shawn Andrews, 2017-12-18 The Power of Perception Leadership Emotional Intelligence and the Gender Divide serves as a practical guide to educate women men and organizations on the barriers that keep women from fully contributing in the workplace These include differences in leadership style and emotional intelligence gender bias and stereotypes breadwinner and caregiver responsibilities and differences in gender culture which show up every day at work and home The Power of

Perception also explores significant changes in global demographic trends and how our youngest generations are impacting the workplace. The Power of Perception clearly illustrates the reasons that we don't see more women leading our global businesses. It has nothing to do with women's skills and competencies and everything to do with perceptions of women as leaders, as workers, as mothers, and as wives. These perceptions have a significant impact on promotion for many women. Perception is reality and it's powerful. The Power of Perception provides personal stories of women's journeys, real world examples, and is based on the author's own research as well as that of many others. Every chapter includes practical, easy-to-apply strategies, summary points, and reflection questions to empower women, men, and organizations to fully leverage talent and diversity.
