

THE ART OF BEER

Beer is one of the oldest and most widely consumed alcoholic drinks in the world, and the third most popular drink overall after water and tea. Beer is brewed from cereal grains—most commonly from malted barley, though wheat, maize (corn), rice, and oats are also used.

HEALTH EFFECTS

A 2016 systematic review and meta-analysis found that moderate ethanol consumption brought no mortality benefit compared with lifetime abstinence from ethanol consumption.

SOCIETY AND CULTURE

In many societies, beer is the most popular alcoholic drink. Various social traditions and activities are associated with beer drinking.

MEASUREMENT

The international scale was a development of the European Bitterness Units scale, often abbreviated as EBU, and the bitterness values should be identical.

BREWING INDUSTRY

The history of breweries in the 21st century has included larger breweries absorbing smaller breweries in order to ensure economy of scale. In 2002, South African Breweries bought the North American Miller Brewing Company to found SABMiller.

BREWING

The process of making beer is known as brewing. A dedicated building for the making of beer is called a brewery, though beer can be made in the home and has been for much of its history.
