Knapp,2016-03-03 Throughout his plays Shakespeare placed an extraordinary emphasis on the power of the face to reveal or conceal moral character and emotion repeatedly inviting the audience to attend carefully to facial features and expressions The essays collected here disclose that an attention to the power of the face in Shakespeare's England helps explain moments when Shakespeare's language of the self becomes intertwined with his language of the face As the range of these essays demonstrates an attention to Shakespeare's treatment of faces has implications for our understanding of the historical and cultural context in which he wrote as well as the significance of the face for the ongoing interpretation and production of the plays Engaging with a variety of critical strands that have emerged from the so-called turn to the body the contributors to this volume argue that Shakespeare's invitation to look to the face for clues to inner character is not an invitation to seek a static text beneath an external image but rather to experience the power of the face to initiate reflection judgment and action The evidence of the plays suggests that Shakespeare understood that this experience was extremely complex and mysterious By turning attention to the face the collection offers important new analyses of a key feature of Shakespeare's dramatic attention to the part of the body that garnered the most commentary in early modern England By bringing together critics interested in material culture studies with those focused on philosophies of self and other and historians and theorists of performance Shakespeare and the Power of the Face constitutes a significant contribution to our growing understanding of attitudes towards

embodiment in Shakespeare's England      **Reading Keats's Poetry** Merve Günday, 2024-07-04 This book claims that Keats's poetry is a reaction against the discourse of modernity which traumatized the human subject by creating a divide between human and nature subject and object. It argues that by transcending this divide and acknowledging the agency of both subject and object, Keats makes an ideological statement and offers a new site of existence or relationality to readers. This site also implies a response to the accusations that the Romantics were not interested in the realities of their time. What Keats does is to give an aestheticized response to the hardcore facts of his time. Departing from previous studies due to its emphasis on subjectivity and relationality, the book discusses Keats with regard to post-non-anthropocentric alternative subject positions and subject-object relations in his *Ode to a Nightingale*, *In drear nighted December*, *Isabella* or *The Pot of Basil*, *Lamia*, *La Belle Dame sans Mercy* and *Ode on a Grecian Urn*. Drawing on Lacanian and Braidottian epistemologies in its discussion of the intricacy between the imaginary and the symbolic, the irruption of the psychotic into the symbolic, and the agency of the object on the subject in Keats's poetry, the book suggests that the inner dynamics of both the subject and the object acquire agency which shatters Oneness and totality assumed in the Cartesian self.
