**A Pedagogy of Cinema** David R. Cole, Joff P.N. Bradley, 2016-07-23 A Pedagogy of Cinema is the first book to apply Deleuze's concept of cinema to the pedagogic context Cinema is opened up by this action from the straightforward educative analysis of film to the systematic unfolding of image A Pedagogy of Cinema explores what it means to engender cinema thinking from image This book does not overlay images from films with an educational approach to them but looks to the images themselves to produce philosophy This approach to utilising image in education is wholly new and has the potential to transform classroom practice with respect to teaching and learning about cinema The authors have carefully chosen specific examples of images to illustrate such transformational processes and have fitted them into in depth analysis that is derived from the images The result is a combination of image and text that advances the field of cinema study for and in education with a philosophical intent This outstanding new book asks a vital question for our time How can we educate effectively in a digitalized corporatized Orwellian surveillance controlled globalized world This question is equally a challenge asked of our ability to think outside of the limiting parameters of the control society and the forces which daily
