A Brief Introduction to Piaget Nathan Isaacs, 2015-04-01 THE GREAT IMPORTANCE of the work of Professor Jean Piaget for child psychology and thus for education has only in recent years been fully recognized This work has gone on for some thirty five years but the sequence of books translated between 1927 and 1932 though very stimulating seemed open to a good many doubts However the volumes published in English during the last decade and others still untranslated have shown beyond question how much Professor Piaget can help us to understand children s intellectual growth We owe to him a striking fresh picture of the child himself as the architect of this growth Piaget s interest lies chiefly in the building up of the basic framework of thought which later the child and we mostly take for granted but that is what makes the new picture so illuminating And from the angle of Infant School teachers it is noteworthy that the period from 4 5 years to 7 8 years turns out to be a specially important one anyway for the average run of children For their biggest step forward in the building of that framework usually falls within this period The present essay will offer a thumbnail sketch of the whole story as Piaget presents it and will then dwell more fully on the happenings of the Infant School phase

Fait et fiction Françoise Lavocat, 2016 Les fronti res entre fait et fiction r alit et imaginaire ont la r putation d tre d sormais brouill es Pourquoi les d fendre Parce qu elles sont une n cessit cognitive

conceptuelle et politique parce que leur disparition limine le plaisir de passer d'un monde à l'autre. Françoise Lavocat propose ici de repenser les frontières de la fiction dans la littérature, le cinéma, le théâtre et les jeux vidéo. La première ambition de son livre réside dans le bilan très complet qu'il dresse des controverses anciennes et récentes sur le statut de la fiction dans les domaines de la théorie littéraire, du droit, de la psychanalyse et des sciences cognitives. La faveur de ces éclairages multiples, l'ouvrage prend notamment en compte le phénomène du storytelling, l'histoire des rapports entre Histoire et poésie, la question du blasphème. Le parti pris de distinction qu'il adopte tout en défendant l'idée d'une hybridité essentielle de la fiction en constitue le second intérêt et la stimulante nouveauté. Les conditions de possibilité d'une culture de la fiction sont interrogées ainsi que ses limites. Le point de vue défendu renouvelle entièrement les termes du débat. L'auteur s'emploie en effet à finir la fiction comme un monde possible possédant son ontologie propre en concentrant l'intérêt sur la relation aux personnages, la question des paradoxes et de la métalepse, cette figure qui confirme la frontière entre les mondes en donnant l'illusion de la franchir.
