Les PME, d'hier à demain Josée St-Pierre, François Labelle, 2017-02-22T00:00:00-05:00 Apr s avoir longtemps t consid r es telles des entreprises fragiles aux ressources limit es avec peu de perspectives de d veloppement et

une perspective incertaine les PME sont désormais reconnues comme des acteurs clés du développement et de la vitalité économique et sociale de toutes les régions. Elles sont devenues des entreprises de moins en moins complexes par leur taille, des entreprises ouvertes, riches dynamiques mais aussi stratégiques. L'environnement dans lequel elles vivent devient de plus en plus international, technologique, turbulent et hautement incertain. Que seront les PME demain ? Les enjeux qui les attendent sont nombreux : développement durable, gestion stratégique des ressources humaines, gestion des connaissances, propriété intellectuelle, internationalisation des activités, innovation, financement. Avec qui, comment et sous quelles conditions vont-elles travailler pour préserver la santé du propriétaire dirigeant et de son personnel ? Cet ouvrage offre d'intéressantes pistes de réflexion visant à examiner les connaissances acquises et les confronter à ce nouvel environnement. Son but est de fournir quelques éclairages sur la situation actuelle des PME et leur réalité plurielle, mais surtout d'initier des réflexions chez les chercheurs et les pouvoirs publics afin qu'ils puissent faire des PME devenir les leaders dont nos sociétés ont besoin.

Tendances conjoncturelles, 2014. **A Manual for Water and Waste Management**, 2003. With 700 million international tourists per year and 500 billion dollars in annual receipts, tourism is one of the biggest industries in the world with an equally serious environmental impact. The use of freshwater and the generation of solid and liquid waste from tourist operations causes serious environmental degradation. This manual looks at small and medium enterprises which represent 80 per cent of tourism businesses worldwide. Whilst some are committed to sustainability, most are not. In many countries, few if any regulations exist to encourage or force operators of tourist facilities to optimize resource consumption. A clean and healthy environment to attract tourists is one of tourism's most valuable assets. This publication aims to close this gap and UNEP hopes to speed up the process of implementing sustainable water and waste technologies in the tourism industry.
