Teaching Palahniuk: The Treasures of Transgression in the Age of Trump and Beyond Christopher Burlingame, 2022-05-10 While much has been written about Chuck Palahniuk and his body of work next to nothing has been written about when where and how it is necessary to teach Palahniuk This collection will reveal that teaching Palahniuk s work and the discursive dynamic of the classroom interactions create new opportunities for scholarship by both the faculty member and his or her students Despite early critical success with *Fight Club* *Invisible Monsters* and *Choke* Palahniuk s novels are increasingly dismissed for the very transgressive content that makes them essential pedagogical tools in the Age of Trump where truth isn t truth and tribalism is stoked with claims of fake news This collection aims to broaden the scholarship by examining under represented and unrepresented works from his oeuvre and situating them in the context of their pedagogical implications In both form and content the transgressive nature of Palahniuk s work demands critical thought and reflection capacities that are necessary for the preservation of a

democratic society Contributors take various approaches to address what students can learn about writing literature and society by reading and analyzing Palahniuk's texts The collection will discuss the value of teaching Palahniuk innovations and various disciplinary contexts for teaching his works and reflections on some of those pedagogical opportunities Through its multi-faceted discussion of Palahniuk and pedagogy this collection will legitimize efforts to bring his work onto syllabi and into the classroom where it can enhance student engagement create new avenues for inter-disciplinary scholarship and reinvigorate an expansion of the canon It will also provide diverse frameworks for incorporating and interpreting Palahniuk's writing across disciplines Finally the collection will offer post-mortems from faculty members who have found the guts to teach Palahniuk and will offer insight into what students have gained and stand to gain from a more intensive Palahniuk pedagogy

Liminality of Justice in Trauma and Trauma Literature Pi-hua Ni, Mei-Chuen Wang, 2023-06-07 With a focus on the liminality of justice in trauma this collective volume probes into the complex liminal status of victim/forced victimizer in trauma a new opening well deserving critical attention and scrutinizes how novelists tackle with literary representations the relevant issues of justice in trauma The contributions in this collection present theoretical revisions of trauma and critical studies on trauma literature ranging from field work on Cambodia's genocide to literary analyses of AIDS literature contemporary American literature contemporary Canadian literature and Indigenous writing in Canada

The Image of the River in Latin/o American Literature Jeanie Murphy, Elizabeth G. Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region's writers This book offers a diverse collection of writings that through a trans-historical and trans-geographical perspective allows us from the vantage point of the twenty-first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies

Douglass,2014-09-11 All interpretive systems deal with the author Modern systems consider the text to be autonomous so that it is disconnected from the author s interests In Reading the Bible Ethically Eric Douglass reconsiders this connection His central argument is that the author is a subject who reproduces her culture and her subjectivity in the text As the author reproduces her subjectivity the text functions as the author s voice This allows Douglass to apply ethical principles to interpretation where that voice is treated as a subject for conversation and not an object for manipulation He uses this to texture the reading process so that an initial reading takes account of the author s communication while a second reading critiques that communication **The Medieval British Literature Handbook** Daniel T.
