English/British Naval History to 1815 Eugene L. Rasor,2004-10-30 The English British have always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the historiographical scholarship [A New History of England](#) Jeremy Black,2008 In his New History of England leading historian Jeremy Black takes a cool and dispassionate look at the vicissitudes of over two millennia of English history [Vanished Kingdoms](#) Norman Davies,2011-10-27 The past is a foreign country has become a truism yet the past differs from the present in many unfamiliar ways and historical memory is extraordinarily imperfect The degree to which we think of the European past as the history of France Germany Britain Russia and so on actually obstructs our view of former reality and blunts our sensitivity to the ever changing political landscape Europe s past is littered with kingdoms empires and republics which no longer exist but which were some of the most important entities of their day the Empire of Aragon which dominated the western Mediterranean in the thirteenth century the Grand Duchy of Lithuania the largest country in Europe for part of the eighteenth century This book shows the reader how to peer through the cracks of mainstream history writing and to catch a glimpse of the Five Six or Seven Kingdoms of Burgundy How long will it be before the USSR until recently one of the world s two superpowers is wholly or half forgotten as most of these The histories of the lost echo across the centuries mixed in with more familiar sounds One of the purposes of this book is to help us hear them again more clearly and appreciate where they came from As in his earlier celebrated books Europe and The Isles Norman Davies aims to subvert our established view what looks familiar in history

and urges us to look and think again This stimulating book full of unexpected stories observations and connections gives us a fresh and original perspective on European history
