**The Pursuit of Signs** Jonathan Culler, 2005-11-29 To gain a deeper understanding of the literary movement that has dominated recent Anglo American literary criticism *The Pursuit of Signs* is a must In a world increasingly mediated it offers insights into our ways of consuming texts that are both brilliant and bold Dancing through semiotics reader response criticism the value of the apostrophe and much more Jonathan Culler opens up for every reader the closed world of literary criticism Its impact on first publication in 1981 was immense now as Mieke Bal notes the book has the same urgency and acuity that it had then though today it has even wider implications with the interdisciplinary turn taking hold literary theory itself through this book becomes a much more widespread tool for cultural analysis

Philosophical Examinations of Historical and Contemporary Problems Merrill Ring, 2022-08-31 The philosophical essays collected here cover a wide range of topics both historical and contemporary The historical essays are examinations of issues in the work of philosophers from Parmenides to Wittgenstein and Quine while those on contemporary matters are chiefly concerned with the nature of knowledge and belief and the relation of science to philosophy They have been written over a long philosophical career and are models of philosophical investigation and argument

Essays on Heidegger and Others Richard Rorty, 1991 Richard Rorty's collected papers written during the 1980s and now published in two volumes take up some of the issues which divide Anglo Saxon analytic philosophers and contemporary French and German philosophers and offer something of a compromise agreeing with the latter in their criticisms of traditional notions of truth and objectivity but disagreeing with them over the political implications they draw from dropping traditional philosophical doctrines The second volume pursues the themes of the first volume in the context of discussions of recent European philosophy focusing on the work of Heidegger and Derrida

**Thiselton on Hermeneutics** Anthony C. Thiselton, 2006 Hermeneutics is an interdisciplinary study of how we interpret

texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments

Anker, 2022-10-28 In *On Paradox* literary and legal scholar Elizabeth S Anker contends that faith in the logic of paradox has been the cornerstone of left intellectualism since the second half of the twentieth century She attributes the ubiquity of paradox in the humanities to its appeal as an incisive tool for exposing and dismantling hierarchies Tracing the ascent of paradox in theories of modernity in rights discourse in the history of literary criticism and the linguistic turn and in the transformation of the liberal arts in higher education Anker suggests that paradox not only generates the very exclusions it critiques but also creates a disempowering haze of indecision She shows that reasoning through paradox has become deeply problematic it engrains a startling homogeneity of thought while undercutting the commitment to social justice that remains a guiding imperative of theory Rather than calling for a wholesale abandonment of such reasoning Anker argues for an expanded diversified theory toolkit that can help theorists escape the seductions and traps of paradox
