

Short-answer Essay Questions – Cognitive Psychology (PHYS 220 F2009) (100%)

Read the questions of particular questions from the previous part of the assignment, and a "Q&A" document that covers some common questions/clarifications regarding questions that you may have had on the assignment. Please do not provide the questions and/or Q&A back, but please email me if you are having problems on the second half of the assignment (regardless of whether you are a TA). Please do the questions again, showing what you've learned and clarifying any questions that you may have had (but not those that you already had).

The format of the essay will be identical to the assignment – you will need to use the same format and citation style as before. You should provide supporting evidence with your responses, but you should be creative in how you do so. Short-answer questions from this part will also be graded questions. The time limit will also apply to the essay format.

1. In the chapter on mental imagery, you discussed evidence for visual imagery being a component of memory. Researcher Neisser's research on visual images are consistent with this idea. However, other research suggests the picture words effect may not be memory-related. Instead, research suggests that picture words may be related to other processes in memory. Researcher John Dunlosky and his colleagues have been interested in this. They argue that the picture words effect is related to the fact that words are processed and stored more quickly than words that are not. They argue that the picture words effect is related to the fact that words are processed and stored more quickly than words that are not. They argue that the picture words effect is related to the fact that words are processed and stored more quickly than words that are not.

2. Please describe the basic ideas behind the basic memory systems of memory: sensory, short-term/working memory, and long-term memory. Please give two examples that show how these systems and processes are related to the systems of the memory.

3. Please describe in your own words the basic components and processes of short-term/working memory. Please give two examples that show how these systems and processes are related to the systems of the memory.

4. Describe the process of memory in a narrative format. First, describe the two systems: sensory and short-term/working memory. Then, describe the two systems: sensory and short-term/working memory. Then, describe the two systems: sensory and short-term/working memory. Then, describe the two systems: sensory and short-term/working memory. Then, describe the two systems: sensory and short-term/working memory.

5. Describe how a memory is encoded and retrieved. Please give two examples that show how these systems and processes are related to the systems of the memory. Please give two examples that show how these systems and processes are related to the systems of the memory. Please give two examples that show how these systems and processes are related to the systems of the memory.
