

Tesla's Dynamic Theory of Gravity

Nikola Tesla's most suppressed work was his theory of gravity.

The lecture which he delivered to the New York Immigrant Society was meant to be a treasure for all mankind. All public copies have been destroyed. Only one researcher, William Lyne has dared to bring it to our attention. The following is an excerpt from his book, *Occult Aether Physics*.

Tesla's Most Suppressed Work
 More classified than even the atom bomb. ~~SECRET~~

Tesla's Dynamic Theory of Gravity

"... It explains the causes and motions of heavenly bodies under its influence so satisfactorily that it will put an end to idle speculation and false conception, such as that of curved space ..."

"Only the existence of a field of force can account for the motions of the bodies as observed, and its interaction depends on space curvature. All attempts on this subject to date and dressed in oblivion. Some all attempts to explain the workings of the universe without recognizing the existence of the **AETHER** and the indispensible function it plays in the phenomena." — Nikola Tesla

AETHER FORCE

According to Tesla's lecture prepared for the Institute of Immigrant Welfare (May. 12, 1938), his "Dynamic Theory of Gravity" was one of two far reaching discoveries, which he "...worked out in all details", in the years 1893 and 1894. The 1938 lecture was less than five years before his death.

More complete statements concerning these discoveries can only be gleaned from scattered and sparse sources, because the papers of Tesla are concealed in government vaults for "national security" reasons. When I specifically asked for these papers at the "National Security Research Center" – now the "Robert J. Oppenheimer Research Center" – in 1979, I was denied access because they were classified, even though on that same day I discovered the plans for the hydrogen bomb on an open shelf, and told a Harvard graduate student about it later in the day at a Santa Fe restaurant. The guy went to Los Alamos, copied the plans, and wrote an expose at Harvard.
