“That we are living through a time of unprecedented crisis is widely acknowledged. What is less certain is whether this crisis is one of the crises endemic to the capitalist world system, or a terminal crisis that signals the collapse of life as we know it .”

The Crisis of Criticism Maurice Berger, 1998 This collection of essays on the nature of art critics authority and responsibilities addresses questions such as whether some art is beyond criticism and how critics can bridge the gap between the art community and the general public

The Crisis in Criticism William E. Cain, 1984 This book is a statement of my views on a number of problems in literary theory and contemporary criticism But it is also as any theoretical study must be a progress report a record of inquiry that has not yet concluded In a sense a book on theory cannot really end At a certain point work on it ceases even though one continues to think critically and skeptically about the problems and the solutions that the book contains Preface p xi

Confronting the "death" of Art Criticism Laurie Rojas, 2012 In 2001 art critic and historian Benjamin Buchloh declared the death of art criticism during the October journal s roundtable The Present Conditions of Art Criticism The following decade witnessed a plethora of articles conferences and books devoted to the crisis of criticism all efforts thus far seem to have failed the crisis has not been abated Art criticism is decaying and our historical moment is not only post modern but also post critical At the same time art writing has become such a broad spectrum of literature that neither author nor reader take it seriously the writing is often ironic filled with joyful and mediocre immediacy and not to mention a proud ahistoricism We are also told however that this is a great moment for culture writings on film music and art are to be found everywhere you turn or click The Internet has allowed the democratization of cultural production anyone can upload a film to YouTube or a track to MySpace everyone has a voice everyone has a blog and everyone is a critic Under quickly changing conditions then what are the present tasks of aspiring art critics This undertaking is multilayered but it must begin with an understanding the crisis of criticism in its contemporary and historical expressions In the first two sections the thesis surveys the symptoms of the illness how art criticism has been unable to grasp the swift changes in the art world and how the curator the dealer and the collector have replaced the critic as the main mediators between art and its public The third section outlines how contemporary art criticism largely anti Greenbergian and anti modern suffers from the flight from judgment In the fourth section I explain how Art criticism was displaced with the emergence of art practices in the 1960s that thought to incorporate criticism into the work itself All are important and often contradictory considerations when seeking to understand the demise of art criticism but all are not equally important for the task of resurrecting and redeeming criticism The final part will dedicate itself to the future of criticism in light of its history It will investigate and introduce possible paths for the reconstitution of art criticism suggesting possibilities exist in the overlooked history of earlier art criticism

Library Critic ,1920 **China's Hydro-politics in the Mekong** Sebastian Biba,2018-03-05 China s Hydro politics in the Mekong explores the intricate processes of conflict and cooperation over the use of water resources in the Mekong river basin between upstream China and the downstream countries of Laos Thailand Cambodia and Vietnam The book tackles two gaps in the empirical literature first the neglect of international hydro politics as one specific and increasingly important issue area of China s foreign policy behavior especially its neighborhood diplomacy and second the disregard of China s role in Mekong River politics In particular this book scrutinizes the spring 2010 Mekong crisis and the events surrounding it which led to a series of complex multi level security related interactions among various state and non state actors in the region with China at the center Analyzing this crisis the book not only employs securitization theory as its theoretical framework and adds a couple of innovations to this theory but also gives a detailed account of China s hydro political behavior in one specific and particularly revealing case study Moreover the book embeds China s Mekong hydro politics in the bigger picture of its sub regional international affairs as the former does not take place in a vacuum but rather is a part of China s overall foreign relations with its neighbors The book acknowledges this link and provides new insights into the role of hydro politics and its relationship vis vis other issue areas of China s foreign policy The Christian View of the Old Testament Frederick Carl Eiselen,1916 **The Methodist Quarterly Review** ,1923 **The Critic** ,1884 **The Library of Literary Criticism of English and American Authors: 1891-1904** Charles Wells Moulton,1904 **The Problem of the Old Testament Considered with Reference to Recent Criticism** James Orr,1906 **The Modern Review** Ramananda Chatterjee,1911 Includes section Reviews and notices of books *Critic and Good Literature* ,1892 *The Insurance Critic* ,1905 **The Journal of Aesthetics and Art Criticism** ,1948
