Library of Congress Subject Headings: L-Z Library of Congress. Subject Cataloging Division, 1986 **Support and aspiration** Great Britain: Department for Education, 2011-03-09 This report unveils proposals for the biggest programme of reform in the education and health support for children with special educational needs (SEN) and disabilities in 30 years. The Government wants to fundamentally reform the SEN system to address problems including parents having to battle to get the support their child needs; SEN statements not joining up education, health, and care support; children falling between the gaps in services or having to undergo multiple assessments, multiple layers of paperwork, and bureaucracy adding delays to getting support, therapy, and vital equipment; confusing and adversarial assessment process with the perceived conflict of interest where the local authority must provide SEN support as well as assess children's needs; too many children are being over-identified as SEN, preventing them from achieving their potential because teachers have lower expectations of them. The Government proposes to include parents in the assessment process and introduce a legal right by 2014 to give them control of funding for the support their child needs; replace statements with a single assessment process and a combined education, health, and care plan so that health and social services is included in the package of support; ensure assessment and plans run
