Provided by publisher: New Frontiers on Life Cycle Assessment, Antonella Petrillo, Fabio De Felice, 2019-06-05

The purpose of this book is to collect a high-quality selection of contemporary research articles on life cycle perspectives when we want to assess and predict the sustainability of solutions that lie in front of us. The book focuses on methodologies and tools used for life cycle sustainability management, covering environmental, social, and economic aspects in business practices, including modeling and simulation-based approaches. In particular, the book aims to collect research applications and case studies in the field of environmental analysis and industrial ecology, with a focus on how to assess contributions to increase resource efficiency and reduce environmental impact on production and service systems in a life cycle perspective: raw material extraction, production, use, and end-of-life management. This book is intended to be a useful resource for anyone who deals with this issue.
