The Mazruiana Collection Revisited Ali Al'Amin Mazrui, 2005 Consists of 650 annotated entries covering Mazrui's books, dissertations, edited works about him, major essays in books, academic journals, and conference papers. This work contains essays including pamphlets, magazine and newspaper articles, and audio-visual recordings. *Selected Articles on Current Affairs* Indian Council of World Affairs. Library, 1958 *Current Affairs Bulletin*, 1960 *Global Competition or Convergence?* Jan Hornát, Lukáš Kindl, 2018-02-01 The dynamics of internal changes in China, whether these changes impact its national economy or its political order and distribution of power, have an imminent influence on its relations with the rest of the world. The important and perhaps less treated question vis-à-vis China's rise is how and to what extent do internal changes in China affect its external behavior and thus its relations with the current world hegemon, the United States. In addition, this publication asks what the clash of two politically, culturally, and economically different internal orders of the US and China will mean for their future interactions in the twenty-first century. The aim of this publication is not to measure and encompass the entirety of the posed question but rather to provide an incursion into this problem through two specific case studies: one focusing on the interactions of two distinct political cultures and the other on the economic, geopolitical, and ideological interplay of the US and China on the African continent. As will be demonstrated, incompatible as the two regimes and their respective foreign policies may seem, they will not necessarily predestine conflicts in mutual relations. As America can well coexist with China even if it does not meet the Western standards of a liberal democracy, so does the competition in Africa between these two major powers not have to amount to a zero-sum game. At the end of the day, both countries might meet halfway in their respective political interactions. **Survey of Current Affairs**, 1999 **On Arms Control** Hedley Bull, 1987-06-18 **Hedley Bull and the Accommodation of Power** R. Ayson, 2012-09-24 Offering a comprehensive account of the work of Hedley Bull, Ayson analyses the breadth of Bull's work as a Foreign Office official for Harold Wilson's government, the complexity of his views, including Bull's unpublished papers, and challenges some of the comfortable assertions about Bull's place in the English School of IR. *Foreign Aid and Development in South Korea and Africa* Kelechi A. Kalu, Jiyoung Kim, 2021-08-15 This book compares the rapid development of South Korea over the past 70 years with selected countries in sub-Saharan Africa to assess what factors contributed to the country's success story and why it is that countries that were comparable in the past continue to experience challenges in achieving and sustaining economic growth. In the 1950s, South Korea's GDP per capita was 876, roughly comparable with that of Côte d'Ivoire and somewhat below Ghana's. The country's subsequent transformation from a war-ravaged, international aid-dependent economy to the 13th largest economy in the world has been the focus of considerable international admiration and attention. But how was it that South Korea succeeded in multiplying its GDP per capita by a factor of 23 while other Less Developed Countries continue to experience challenges? This book compares South Korea's politics of development and foreign assistance with that of Ghana.

Nigeria and Zambia which were also major recipients of the U S aid to investigate the specific contexts that made it possible for South Korea to achieve success Overall this book argues that effective state capacity in South Korea s domestic and international politics provided an anchor for diplomatic engagement with donors and guided domestic political actors in the effective use of aid for economic development This book will be of interest to researchers and students working on development comparative political economy and foreign aid and to policy makers and practitioners looking for a greater understanding of comparative development trajectories
