## Les Du Ekladata:

**Assembly Lines** Ivan Cerecina, 2026-02-10 A bold new understanding of montage and French cinematic history Amid the tumult of change that swept through French society in the wake of World War II a trio of visionary filmmakers sought to make meaning of the chaos by revitalizing a common method montage Revealing Nicole V dr s Alain Resnais and Chris Marker as more than just groundbreaking auteurs Ivan Cerecina shows how their collective infusion of montage with avant garde aesthetics renewed the art of cinema while helping France reckon with its past and imagine its future Assembly Lines challenges a dominant story of postwar French film championed by critics at important film journals like Cahiers du cin ma that has generally centered realist film aesthetics Working against this tendency Cerecina shows how V dr s Resnais and Marker revitalized montage as a technique in response to the crises of the times using it to process the ravages of the recent past expose hidden connections and uncover signs of coming catastrophe Wedding insightful analyses of films and French cultural history with writings from lesser heard voices like Andr Malraux Jacques Brunius and Henri Langlois Assembly Lines illuminates obscured networks of critics filmmakers and historians to reshape our conception of French film and documentary Meanwhile Cerecina s in depth archival research unearths vital documents including correspondence and production notes on V dr s s Paris 1900 and Resnais s Night and Fog More than a cinematic retrospective Cerecina s investigation of montage is also a call to action today as contemporary crises prompt reevaluation of our cultural histories Assembly Lines exemplifies a powerful future oriented practice of historical reflection with implications that go well beyond the study of film Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

**Les représentations de la folie féminine dans la littérature française du XXème et du XXIème siècle. Travail de Mémoire 2020** Mélanie Fernandes, 2021-03-10 M moire de fin d tudes de l ann e 2020 dans le domaine Philologie fran aise Litt rature note 1 3 Universit du Luxembourg Facult des Sciences Humaines des Sciences de l ducation et des Sciences Sociales langue Fran ais r sum Dans quelle mesure la repr sentation de la folie f minine dans la litt rature contemporaine peut elle remettre en question les pr jug s l gard de la place de la femme Nous allons nous pencher sur cette question en nous r f rant trois uvres contemporaines Le bal des folles de

Victoria Mas Le Ravissement de Lol V Stein de Marguerite Duras et Suzy Storck de Magali Mougel selon une chronologie qui suit le temps de l'histoire narrative. Celles-ci nous exposeront trois formes de folies différentes notamment l'hystérie, la dépersonnalisation et la dépression post-partum. L'objectif ciblé de cette analyse est de pouvoir trouver un fil conducteur commun entre ces œuvres qui servira à justifier une représentation de la folie perçue comme un régulateur social. Pour appréhender cette problématique nous devrons établir des rapprochements entre littérature, sociologie et langage. Ainsi nous nous baserons surtout sur des conférences données par Michel Foucault et des théories sociologiques d'Erving Goffman en rapport avec la stigmatisation, la folie et l'interaction sociale. Même si les auteures de ces œuvres n'indiquent pas forcément d'adopter une vision féministe dans leurs travaux, il nous faudra admettre la présence de certaines idées qui semblent appeler une volonté globale d'émancipation de la femme. De ce fait, je me référerai entre autres à une thèse écrite par Morag Fallows qui a pour sujet *Women and Madness: an exploration of why women are commonly labelled as mad*. L'étudiante diplômée en *Sociology and Social Policy* y développe de façon ciblée la problématique de la surreprésentation de la femme dans le domaine de la folie. Enfin, pour revenir à l'aspect littéraire de l'analyse, le choix d'un corpus primaire basé sur le genre de la fiction est volontaire afin de mettre en avant sa capacité de persuasion et de vision. Nous verrons traverser les mondes possibles évoqués par Nelson Goodman et les caractéristiques de la fiction établies par Jean-Marie Schaeffer que la fiction peut être un labyrinthe où l'on se perd ou dans lequel on se découvre. Il s'agira donc de considérer la fiction outre son aspect de divertissement comme un outil de compréhension capable d'ouvrir les portes de mondes inconnus au lecteur et de faire naître en lui un intérêt pour des débats qui restent encore actuels.
