Focus on Personal Finance Jack R. Kapoor, 2019 **Tl;dr** Karl Fisch, 2019-05-05 You know you need to learn more about

personal finance in order to make financial decisions but you just find it too overwhelming too intimidating and too time consuming This book was written for you giving you the basics in less than an hour and then directing you to further resources fischlearning.com/tldr if you'd like to learn more It's about 30 pages and should take less than an hour to read so instead of TL DR Too Long Didn't Read it will hopefully be JR DR KM Just Right Did Read Know More This book isn't about getting rich quickly not that there's anything wrong with that but it's about gaining knowledge and building your capacity in order to live a good life What's a good life I don't know everyone's definition is different What's important is that you take the time to define what a good life is for you and then align your financial decisions with that The goal of this book is to help you think about your finances in such a way that you have the independence to lead the life you want to live to give you as much control as possible over your financial situation so that your finances don't prevent you from living the life you want I say book because that's what Amazon calls it but it's more like a really long blog post I wrote it because finances and financial decisions are such a huge part of everyone's life that they should take the time to thoroughly educate themselves Since many folks won't do that this book is an attempt to quickly give them the basics and hopefully encourage them and give them the confidence to learn more I am not a financial planner I have taught students mathematics and computer science for over thirty years but have no formal training in personal finance or investing and no certifications I am simply a lifelong learner constantly curious and have been interested in personal finance since working in a credit union during high school and college and continued to be curious and learn more about finance during my career as a public school teacher Over my years as a teacher I discovered that not only did my students not know much about personal finance but neither did my family friends and colleagues I often served as a resource for those folks Partially as a result of that experience I see the necessity for a book such as this as I wanted to do my part to try to help others become financially literate While it would be nice to make a little bit of money from this that's not really my expectation or my goal This is a passion project for me I hope folks find it helpful If you do read it it would be helpful if you could leave a review on Amazon and or email me at karl@fischlearning.com a testimonial for the accompanying website I would also love constructive feedback at bit.ly/tldrfeedback So about thirty pages About an hour Ready to get started Future you will thank you

Financial Illiteracy Is Costing You More Than 35 000 Here's How to Change That Did you know that the average millennial in the US is 36 000 in debt Sound familiar You've just gotten out of college and you're overwhelmed by student loan payments Not only that an entry level job is keeping you from earning the money that would support the lifestyle you desire So what can you do about it Is there any way to gain financial stability as early as in your 20s or 30s Of course there is And the answer happens to be a whole lot simpler than what you may imagine when thinking of saving and investing For a start you need to get out of debt asap The longer you remain a part of the vicious cycle the more difficult it is to get out of the debt swamp You can be debt free in your late 20s To accomplish this goal however you'll need to do some financial growing up

Once you manage to kill the debt beast you can move on to pursue all your life goals saving enough to retire early starting a family buying a house or starting your own business Financial literacy consists of several simple yet essential concepts you'll need to master In other words you'll need to learn smart instead of hard when it comes to personal asset management In *Financial Literacy How to Gain Financial Intelligence Financial Peace and Financial Independence* you will discover The 4 cardinal sins of youthful spending that will keep you in debt forever An 8 step iron clad methodology for getting out of debt in your 20s and 30s Smart ways to save money without having to give up your preferred lifestyle How to have fun and enjoy adventures for free or with minimal spending 12 brilliant ideas to earn more money some have even been employed by top entrepreneurs for years Reasons why no future dream is too big to pursue if you plan properly The basics of saving and investing like a boss while still a young adult The essence of financial responsibility in a marriage or a committed relationship Psychology of abundance the mindset that sets millionaires apart from everybody else And much more You don't have to wait until you're 40 to become financially independent In fact if you wait this long it may be too late to introduce meaningful change in your life Even if you earn a small income right now you can take the baby steps that will add up and contribute to more security more freedom and a higher level of financial responsibility It doesn't matter if you can save 5 or 1 000 per month After all a small trickle can quickly turn into a deluge Do you want to become the master of your own money and your future Are you looking forward to retiring in your 40s If you're eager to learn the secrets of wealth and financial freedom scroll up and click the Add to Cart button now
