**Screening Stephen King** Simon Brown, 2018-02-28 Gathers together the unruly mess of King adaptations And places it within the sociocultural and industrial context of four decades of horror Philip L Simpson author of Psycho Paths Starting from the premise that Stephen King has transcended ideas of authorship to become his own literary cinematic and televisual brand Screening Stephen King explores the impact and legacy of over forty years of King film and television adaptations Simon

Brown first examines the reasons for King's literary success and then starting with Brian De Palma's *Carrie* explores how King's themes and style have been adapted for the big and small screens. He looks at mainstream multiplex horror adaptations from *Cujo* to *Cell*, low budget DVD horror films such as *The Mangler* and *Children of the Corn* franchises non horror films including *Stand by Me* and *The Shawshank Redemption* and TV works from *Salem's Lot* to *Under the Dome*. Through this discussion Brown identifies what a Stephen King film or series is or has been how these works have influenced film and TV horror and what these influences reveal about the shifting preoccupations and industrial contexts of the post 1960s horror genre in film and TV. Well written. It really is the most exhaustive analysis of Stephen King on the screen that has ever been written. Cinepunx. This book is not only essential as a study of Stephen King and his works adapted to the big and small screen it is also an exemplary study of the evolution of the horror genre in its ebb and flow from literary adaptation to gore laden saturation and beyond since the mid 1970s.
