Democratizing Luxury Annika A. Culver, 2023-12-31 Democratizing Luxury explores the interplay between advertising and consumption in modern Japan by investigating how Japanese companies at key historical moments assigned value or luxury to mass produced products as an important business model Japanese name brand luxury evolved alongside a consumer society emerging in the late nineteenth century with iconic companies whose names became associated with quality and style At the same time Western ideas of modernity merged with earlier artisanal ideals to create Japanese connotations of luxury for readily accessible products Businesses manufactured items at all price points to increase consumer attainability while starkly curtailing production for limited editions to augment desirability Between the late nineteenth and twenty first centuries control over family disposable income transformed Japanese middle class women into an important market Growth of purchasing power among women corresponded with Japanese goods diffusing throughout the empire and globally after the Asia Pacific war 1931-1945 This book offers case studies that examine affordable luxury consumer items

often advertised to women including drinks beauty products fashion and timepieces Japanese companies have capitalized on affordable luxury since a flourishing domestic mercantile economy began in the Tokugawa period 1603 1868 showcasing brand name shops renowned artisans and mass produced woodblock prints by famous artists In the late nineteenth century personalized service expanded within department stores like Mitsukoshi Shiseid cosmetic counters and designer boutiques Shiseid now globally markets invented traditions of omotenashi Japanese values of hospitality expressed in purchasing and consuming its products In postwar times when a thriving democracy and middle class were tied to greater disposable income and consumerism companies rebuilt a growing consumer base among cautious shoppers democratizing luxury at reasonable prices and maintaining business patterns of accessibility high quality and exemplary service Nationalism amid economic success soon blended with myths of unique Japanese identity in a mass consumer society suffused by commodity fetishism with widely available brand names As the first comprehensive history of iconic Japanese name brands and their unique connotations of luxury and accessibility in modern Japan and elsewhere *Democratizing Luxury* explores company histories and reveals strategies that lead customers to consume these alluring commodities **Ametora** W. David Marx,2015-12-01
