

End-of-History Illusion

The End-of-History Illusion, as coined by psychologists Daniel Gilbert and Jordi Quoidbach in a 2011 study, refers to our tendency to believe that the person we are at the present moment is the final and complete version of ourselves. In other words, we assume that our current beliefs, preferences, and values will remain relatively stable over time, extending indefinitely into the future.

The Illusion Of The End

Frank Lind, Henri Garenne

The Illusion Of The End:

The Illusion of the End Jean Baudrillard, 1994 The year 2000 the end of the millennium is this anything other than a mirage the illusion of an end like so many other imaginary endpoints which have littered the path of history In this remarkable book Jean Baurdrillard France s leading theorist of postmodernity argues that the notion of the end is part of the fantasy of a linear history Today we are not approaching the end of history but moving into reverse into a process of systematic obliteration We are wiping out the entire twentieth century effacing all signs of the cold War one by one perhaps even the signs of the First and Second World Wars and of the political and ideological revolutions of our time In short we are engaged in a gigantic process of historical revisionism and we seem in a hurry to finish it before the end of the century secretly hoping perhaps to be able to begin again from scratch Baudrillard explores the fatal strategies of time which shape our ways of thinking about history and its imaginary end Ranging from the revolutions in Eastern Europe to the Gulf War from the transformation of nature to the hyper reality of the media this postmodern mediation on modernity and its aftermath will be widely read

The Illusion Of Victory Thomas Fleming, 2008-08-05 The political history of the American experience in World War I is a story of conflict and bungled intentions that begins in an era dedicated to progressive social reform and ends in the Red Scare and Prohibition Thomas Fleming tells this story through the complex figure of Woodrow Wilson the contradictory president who wept after declaring war devastated because he knew it would destroy the tolerance of the American people but who then suppressed freedom of speech and used propaganda to excite America into a Hun hating mob This is tragic history inexperienced American military leaders drove their troops into gruesome slaughters progressive politics were put on hold in America an idealistic president s dreams were crushed because of his own negligence Wilson s inability to convince Congress to ratify U S membership in the League of Nations was one of the most poignant failures in the history of the American presidency but even more heartrending were Wilson s concessions to his bitter allies in the Treaty of Versailles In exchange for Allied support of the League of Nations he allowed an unfair peace treaty to be signed a treaty that played no small role in the rise of National Socialism and the outbreak of World War II Thomas Fleming has once again created a masterpiece of narrative American history This incomparable portrait shows how Wilson sacrificed his noble vision to megalomania and single mindedness while paying homage to him as a visionary whose honorable spirit continues to influence Western politics
