The Merchant Of Death:

The Druid of Death Richard T. Ryan,2018-07-31 On the morning of the vernal equinox in 1899 Holmes is roused from his bed by Lestrade The inspector has received a report of a girl brutally murdered at Stonehenge Upon arriving at the famed site Holmes discovers the body of a young woman On her forehead painted in blood is a druidic symbol On her side also in blood is a message written in a strange language that neither Holmes nor Lestrade can decipher The girl was also eviscerated and her organs placed around her body As a final touch branches from yew trees had been artistically arranged around the corpse Holmes senses a malevolent force at work but without data he is powerless As the weeks pass he slowly gathers information about the ancient druids and Celtic mythology and begins to assemble a small army of experts to assist him Expecting the killer to strike again on the summer solstice Holmes and Watson travel to the Nine Ladies in Derbyshire the site of another stone circle that harkens to druidic times While they are holding their vigil Lestrade and his men are off keeping watch over the stone circles at Avebury and several other locations The Great Detective s worst fears are realized when on the morning of the summer solstice he learns that the body of a young man has been discovered in the eye of the White Horse of Uffington Like the first victim he too has been marked with a druidic symbol and his body bears a message Aside from the symbol and the message the only other difference appears to be that his body and organs have been surrounded by willow branches Realizing full well that a maniac reminiscent of the Ripper is on the loose Holmes and Watson find themselves in a race against time as they try to locate the cult identify the killer and prevent another tragedy

Aaron Aquilina,2023-05-18 Through examination of the death penalty in literature Aaron Aquilina contests Heidegger s concept of being towards death and proposes a new understanding of the political and philosophical subject Dickens Nabokov Hugo Sophocles and many others explore capital punishment in their works from Antigone to Invitation to a Beheading Using these varied case studies Aquilina demonstrates how they all highlight two aspects of the experience First they uncover a particular state of being or more precisely non being that comes with a death sentence and second they

reveal how this state exists beyond death row as sovereignty and alterity are by no means confined to a prison cell In contrast to Heidegger's being towards death which individualizes the subject only I can die my own death supposedly this book argues that when condemned to death the self and death collide putting under erasure the category of subjectivity itself Be it death row or not when the supposed futurity of death is brought into the here and now we encounter what Aquilina calls relational death Living on with death severs the subject's relation to itself the other and political sociality as a whole rendering the human less a named and recognizable being than an anonymous living corpse a human thing In a sustained engagement with Blanchot Levinas Hegel Agamben and Derrida *The Ontology of Death* articulates a new theory of the subject beyond political subjectivity defined by sovereignty and beyond the Heideggerian notion of ontological selfhood

The Hearts of the Elements Brett Kirkpatrick, 2015-10-27 The darkness inside people is something that cannot be removed will not be destroyed For with a lack of darkness the light itself becomes destructive This is true of all things without death life has no purpose Without oppression the human spirit has no wings One must never endure a complete lack of good nor a complete lack of evil to do so would destroy everything you are as well as the potential of what you could be Do not strive to be purely good for walking always in the light changes a person Attempt forever to avoid the darkness for it will rip you apart Walk instead a hairs width between the two it is here in the darkness before the light that the great the influential and the god like are most often found Kayara Kutaragi The world has split into its six core elements The resulting world of the element Earth has four quadrants each one perpetually one of the seasons winter spring summer and fall For longer than any can remember the world has thrived the people and animals evolving to live on the new planet The gears have begun to turn however on a new evolution A lemure close kin to the lemurs of the original Earth brings the girl Aria a tiny emerald Ameagla is kicked out of the shelter of his homeland to live or die alone in the harshest quadrant Jade takes it on herself to strike a deal with the merchant of death in order to save her father's life There she meets Kaalin and Kayara who will join her on her task The players are set on a world sized chessboard to unravel the mysteries of the ancients the technology and the power they possessed over the very world itself With the guardians of the seasons and other forces out to deter them it is unknown what questions will be answered and what answers will reveal more questions
