D. Mason, 2023-06-05. Plan for your dream career and take control of your future without going into debt. Are you a High School or Secondary School student worried about upcoming college and career planning decisions? Are you at that point in your life where you have to make a choice about your future? Have you been told repeatedly that going to college is the only way to ensure career success? Have all those student loan horror stories made you wary of going into debt for an education? Graduating from high school should be an exciting time. You're finally done with this chapter in your life and are ready to take on new and more challenging opportunities as you move toward adulthood and independence. But it's also a time when you feel the pressure to make a decision: pick a major, choose a school, figure out your career path. With so many options to choose from, this can be a paralyzing process. Choosing one option may mean you're closing the door to better ones. What if you make the wrong choice? Even more with the cost of college tuition averaging tens of thousands of dollars, it may seem like you're doomed to start your career already burdened by student debt. Student debt is not only a financial burden you could be carrying around for the next 10 to 20 years; it could also impede major life decisions and negatively affect your mental health and overall quality of life. But the good news is a college degree and student debt aren't your only options. You can still get access to valuable training and practical experience that will set you up for a flourishing career without having to enter your working life in Major College Debt. It's all in this information-packed handbook filled with practical advice and information from an expert who chose an alternative educational path and found great success and security. Here's just a fraction of what you'll discover from this book: Everything you need to know about the education path that is just as good as traditional college or even better, but no one seems to talk about it. Questions you should be asking yourself and prospective employers to figure out the career that's best for you. Why you should be thinking of retirement as early as now and what that has to do with your career plans. The art of job shadowing: gain an insight into the inner workings of a job that you won't get through research alone. A deeper look into the costs of education so you have an idea of what expenses to expect beyond tuition fees. The traditional vs. an alternative route: an in-depth comparison of college and vocational school, including the training and career opportunities each provides. In-demand and lucrative jobs that don't require a college degree: you could be earning great yearly income sooner and you won't have to rack up student debt. Expert information tailored for young adult students in the US, UK, and Canada. And so much more. Figuring out what you want to do after high school is one of the biggest and scariest decisions you'll ever have to make, but with the right information, you can take control of your future and make these important decisions with greater confidence. Forge your own path in life and don't let anything or anyone stop you from creating the future you want for yourself. The first step to your success story starts today.
