Applied Linguistics and Materials Development Brian Tomlinson, 2013-01-31. Applies applied linguistic theories to the development of materials for language learning to add new depth to the field. *Just Reading and Writing*, 2007. **The Strategy Factor in Successful Language Learning** Carol Griffiths, 2013-05-09. This book addresses fundamental questions regarding the relationships between successful language learning and strategy use and development according to learner situational or target variables. It considers strategy effectiveness from an individual point of view and discusses pedagogical issues especially relating to teacher perceptions and training, classroom and learner factors, methodology and content. The book begins by discussing underlying theoretical issues and then presents evidence from empirical studies in addition to presenting a quantitative view, the book also takes a qualitative look at strategy use by individuals. Rather than focusing on strategies divorced from the real world of the classroom, this book explores the issues from the teaching/learning point of view.
