Harris,2001 The job

market continues to change Highly skilled and specialized workers are in demand Traditional education cannot meet all the needs to create specialty skill workers Certification provides up to date training and development while promoting individual or professional skills and knowledge in a focused manner Certification as a way of continuing professional education can also be more cost effective CPP Exam Essential Topics Study Guide 2013 ExamREVIEW,2012-09-23 In the practical real world a CPP may be a security manager an external consultant or a law enforcement agent For purpose of the exam however you want to position yourself as a hired consultant one who acts as an advisor to the company management The company is your client and you are helping it out You advise you guide and you recommend You need to understand your client If your client is absolutely new to security full scale interviews and statistical analysis on crimes may be necessary However if your client has a working security mechanism in place then you should conduct assessment basing primarily on inputs from management In other words management determines the depth and scope of the security project Management makes the decisions You suggest ways to improve then carry out the decisions made by management You don t normally make decisions for your client It is safe to say that you assume the role of project manager for your client s security project The security project would start by discussing the scope of work with your client The most important meeting between you and the client would be the initial goal setting and policy review meeting Senior management is going to get involved and you are going to act as the facilitator From this meeting you become aware of the level of risk your client is willing to assume and accept Your work would then start from there When working on a project it is important to understand the background and operation of the client You also want to know what you are up against Protection against vandalism is totally different from protection against terrorist attack A CPP is more on the planning and management side of security A security guard professional on the other hand is to provide client with professional protective services It is believed that the CPP certification is more general in nature while the PSP certification is way more specific and in depth in physical security To summarize the major knowledge areas include Security Principles and Theories Business Principles Personnel Security Physical Security Information Security Crisis Management Investigations Legal Matters We give you knowledge information relevant to the exam specification To be able to succeed in the real exam you ll need to apply your earned knowledge to the question scenarios Many of the exam questions are written to be less straight forward They tend to be framed within the context of short scenarios An advice Do NOT rely on a single source for exam preparation To secure exam success always use multiple sources and read as much as possible Security Management ,1987 *Private Security* Charles P. Nemeth,2022-12-28 Provides a history and theory while focusing on current best practices and practical security functions and analytic skills professionals need to be successful Outlines the increasing roles of private sector security companies as compared to federal and state law enforcement security roles since 9 11 Includes key terms learning objectives end of chapter questions Web exercises and numerous references throughout the book to enhance student learning Presents the diverse and expanding
