

# A Code of Ethical Conduct at a Probation Agency

Topic: Sociology | Words: 391 | Pages: 1

The criminal justice system plays a crucial role in society by enforcing laws and facilitating public safety. Considering the purpose of agencies within the system, it is vital to ensure that persons representing these organizations act in a manner that can be deemed just, moral, and unbiased. This paper considers the process of developing a code of ethical conduct that a probation agency should adopt.

The development of an ethical code of conduct for a probation organization is a complex undertaking. The process will involve several stakeholders in order to ensure the code incorporates a variety of perspectives. Thus, senior officials, watchdog agencies, officers working closely with individuals on probation, and persons with suspended sentences will be offered a chance to provide their input on ethical issues they believe should be addressed. In addition, research on common ethical issues in probation and probation values should be consulted (Dominey & Canton, 2022). It would be valuable to refer to such resources as the codes of conduct for the Federal Probation and Pretrial Officers Association and the Probation Institute (Federal Probation and Pretrial Officers Association, 2022; Probation Institute, 2022). In order to guarantee awareness and adoption of the new code of ethical conduct, all employees will be made aware of its development from the first stages. After completion, a copy will be distributed to all personnel, with an opportunity to pose queries about the new code. The final step in communicating the new code is a training session, where every aspect will be examined in detail.
