Ford, Kimberly B. Garza, Lindsey E. Moseley, Emily B. Wilkins, 2024-01-16 The evolving landscape of healthcare tasks health professions

educators with preparing the next generation of providers to be adaptable responsive and self directed to ensure that they are prepared for entry into practice The complexity of developing implementing and assessing health professions education is further compounded when educators consider the expectations of their learners and strive to integrate their needs and expectations into the learning environment As a result of the varying academic requirements of health professions disciplines educators may be faced with teaching students spanning multiple generations to primarily include Millennial and Generation Z learners Educators must be prepared to anticipate identify and respond to differing generational expectations to ensure that health professions students are equipped with the knowledge skills and abilities needed for practice This book examines generational differences between Millennial and Generation Z learners to inform health professions educators of those generational characteristics and expectations The book also illustrates how higher education has evolved and changed as a result of the COVID 19 pandemic and the impending demographic cliff how educators can adapt the varying learning environments classroom clinical and experiential present within health professions education and provide best practices to consider when developing implementing and revising learning opportunities

The Definitive Guide to the OSCE Ronald M. Harden,Pat Lilley,Madalena Patricio,2015-08-07 This book highlights the basic concepts underpinning the OSCE its development and implementation in practice Practical guidelines and tips are provided based on the authors extensive experience gained over 40 years Case studies are included to illustrate the OSCE s use in a wide range of settings and professions to assess the expected learning outcomes The text is supplemented with personal accounts and anecdotes Used globally in all phases of education in the different healthcare professions the OSCE was first described by the lead author Harden in 1975 and it is now the gold standard for performance assessment This book is an invaluable addition It pulls together in one place pretty well everything that is known about the OSCE what works and what doesn t It is a welcome addition to the bookshelf of any educational leader Geoff Norman s Foreword This book provides a full understanding of the basic concepts underpinning the OSCE and shows how to implement an OSCE effectively and efficiently in a variety of contexts It includes case studies demonstrating the use of the OSCE in practice in a range of different fields Practical guidelines and tips are provided based on the authors extensive experience

Technologies in Biomedical and Life Sciences Education Harry J. Witchel,Michael W. Lee,2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning

can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come

The Pharmacist Guide to Implementing Pharmaceutical Care Filipa Alves da Costa, J. W.
