Pile Design and Construction

Practice, Fifth Edition Michael Tomlinson, John Woodward, 2007-12-06 This international handbook is essential for geotechnical engineers and engineering geologists responsible for designing and constructing piled foundations. It explains general principles and practice and details current types of pile piling equipment and methods. It includes calculations of the resistance of piles to compressive loads, pile groups under compressive loading, piled foundations for resisting uplift and lateral loading, and the structural design of piles and pile groups. Marine structures, miscellaneous problems including machinery foundations, underpinning, mining, subsidence areas, contracts, and frozen ground, durability of piled foundations, ground investigations, and pile testing are also covered. It introduces the 2005 version of Eurocode 7 BS 8004 and other codes and refers to BS 6349 on maritime structures and new forms of civil engineering contracts suitable for piling projects. It includes numerous worked examples to the codes, many based on actual problems. It also gives very comprehensive information for students.

Geotechnical Engineering Ruwan Rajapakse, 2004 The main objective of this book is to provide a comprehensive pile design and construction guide to practising geotechnical engineers. The book does not require any special technical knowledge other than basic mathematical skills. The first portion deals with construction aspects of piling. In this section, pile types, pile hammers, piling techniques, problems associated with piling work, and cost considerations are discussed. Second portion of the book is devoted to pile design. Pile design in different soil conditions, pile groups, pile settlement, Bitumen coated pile design, and lateral loading analysis were some of the subjects discussed. Almost all the chapters in the design section contain design examples. Design examples are provided to complement the theory and the designer should not follow the examples blindly during the design process. Bookjacket
