Postcolonial Theory And International Relations A Critical Introduction Interventions:

Postcolonial Theory and International Relations Sanjay Seth, 2013 What can postcolonialism tell us about international relations What can international relations tell us about postcolonialism In recent years postcolonial perspectives and insights have challenged our conventional understanding of international politics Postcolonial Theory and International Relations is the first book to provide a comprehensive and accessible survey of how postcolonialism radically alters our understanding of international relations Each chapter is written by a leading international scholar and looks at the core components of international relations theories the nation geopolitics international law war international political economy sovereignty religion nationalism Empire etc through a postcolonial lens In so doing it provides students with a valuable insight into the challenges that postcolonialism poses to our understanding of global politics

Beyond International Intervention Katarina Kušić, 2025-03-27 Studies of statebuilding and peacebuilding have been criticized for their disregard of people living the consequences of intervention projects Beyond International Intervention takes on the task of engaging with spaces and peoples not usually present in IR scholarship to rethink the very concept of intervention by paying close attention to how people actually experience and make sense of those efforts In particular the book offers a detailed engagement with ethnographic fieldwork in two policy areas in Serbia agricultural policy and non formal youth education By engaging with subjects the book not only enhances our understanding of intervention but also uncovers the limitations of the concept Katarina Kušić argues that the concept limits what we can observe and theorize and it prevents researchers from engaging with the people living in spaces of intervention as coeval political subjects As an alternative she proposes to foreground improvement over intervention This reorientation enables researchers to trace hierarchies beyond the local international dichotomy expands fields of visibility beyond those prescribed by interventions themselves and seriously considers the contradictions at the heart of liberalism

International Intervention in a Secular Age Audra Mitchell, 2014-04-03 International intervention is not just about saving human lives it is also an attempt to secure humanity's place in the universe This book explores the Western secular beliefs that underpin contemporary practices of intervention most importantly beliefs about life death and the dominance of humanity These beliefs shape a wide range of practices the idea that human beings should intervene when human lives are at stake analyses of violence and harm practices of intervention and peace building and logics of killing and letting die Ironically however the Western secular desire to ensure the meaningfulness of human life at all costs contributes to processes of dehumanization undercutting the basic goals of intervention To explore this paradox International Intervention in a Secular Age engages with examples from around the world and draws on interdisciplinary sources anthropologies of secularity and IR posthumanist political philosophy ontology and the sociology of death This book offers new insight into perennial problems such as the reluctance of intervenors to incur fatalities and international inaction in the face of escalating violence It also exposes new dilemmas such as the dehumanizing

effects of quantifying casualties Western secular logics of killing and the appropriation of lives and deaths through peace building processes It will be of great interest to students and scholars of international relations political philosophy international ethics and social anthropology

War, Police and Assemblages of Intervention Jan Bachmann, Colleen Bell, Caroline Holmqvist, 2014-11-13 This book reflects on the way in which war and police policing intersect in contemporary Western led interventions in the global South The volume combines empirically oriented work with ground breaking theoretical insights and aims to collect for the first time thoughts on how war and policing converge amalgamate diffuse and dissolve in the context both of actual international intervention and in understandings thereof The book uses the caption WAR POLICE to highlight the distinctiveness of this volume in presenting a variety of approaches that share a concern for the assemblage of war police as a whole The volume thus serves to bring together critical perspectives on liberal interventionism where the logics of war and police policing blur and bleed into a complex assemblage of WAR POLICE Contributions to this volume offer an understanding of police as a technique of ordering and collectively take issue with accounts of the character of contemporary war that argue that war is simply reduced to policing In contrast the contributions show how both historically and conceptually the two are always already connected Contributions to this volume come from a variety of disciplines including international relations war studies geography anthropology and law but share a critical poststructuralist approach to the study of international intervention war and policing This volume will be useful to students and scholars who have an interest in social theories on intervention war security and the making of international order

Handbook of Alternative Theories of Political Economy Stilwell, Frank, Primrose, David, Thornton, Tim B., 2022-05-13 This Research Handbook advances entrepreneurship theory in new ways by integrating and contributing to contemporary theories of practice Leading theorists and entrepreneurship experts who are part of the growing Entrepreneurship as Practice EaP research community expertly propose methodologies theories and empirical insights into the constitution and consequences of entrepreneuring practices

Post-9/11 Espionage Fiction in the US and Pakistan Cara Cilano, 2014-05-09 As the events of 11 September 2001 and their aftermath influence new developments in spy fiction as a popular genre an examination of these literary narratives concerned with espionage and terrorism can reshape our approach to non fictive representations of the same concerns Post 9 11 Espionage Fiction in the US and Pakistan examines post 9 11 American spy fictions alongside Pakistani novels that draw upon many of the same figures tropes and conventions As the Pakistani texts re place spy fiction s conventions they offer another vantage point from which to view the affective appeals common to these conventions usual deployment in American texts This book argues that the appropriation by Pakistani writers of these conventions insistently tracks how the formulaic and popular nature of post 9 11 American espionage thrillers forwards and reinforces appropriate affective responses often linked to domestic sites and relations to terrorism It also analyses and compares American and Pakistani representations of the twinned figures of the spy or his proxy and the

Salter, 2002-09-20 Explicitly engaging and criticizing Samuel Huntington's Clash of Civilizations Salter The American U Cairo Egypt places Huntington's thesis in context of long line of discourses justifying imperialism Acknowledging a debt to post-structuralist theory he argues that Huntington distinguishes between a civilized West and a barbarous Islam that is the natural enemy of civilization In order to expose and delegitimize this attempt to reinscribe imperial cartographies on the post-Cold War order he traces the civilization-barbarian discourse through the 19th and 20th centuries in order to illustrate the political function that the discourse serves in international relations theory Distributed by Stylus Annotation copyrighted by Book News Inc Portland OR
