Strong output demand over the last year has stretched the industry The issues are being felt by all firms across the delivery chain from clients to subcontractors Capacity constraints almost always manifest themselves in prices Increased tender prices have become the primary symptom of these supply side issues The main driver of new work output growth over the last 18 months is slowing Both the public and private housing sectors are quickly reversing all of their recent upward trends when looked at on a yearly growth basis The counterpoint to this is that the yearly growth figures are still positive meaning that new work continues to flow SPON S ARCHITECTS AND BUILDERS PRICE BOOK 2016 compiled by AECOM still provides the most accurate detailed and professionally relevant construction price information for the UK Its unique Tender Index updated through the year gives an ongoing reality check and allows you to adjust for changing market conditions Although it suits a wide range of project sizes this is the only price book which sets out a detailed cost base for contracts exceeding 3 500 000 in value Use the access code inside the front cover of the book to get set up with internet access to this 2016 edition until the end of December 2016 We now provide SPON S Online a versatile and powerful online data viewing package online or offline on your PC Mac smartphone or tablet You can browse and search the content across all the price books you own make notes and highlights and share these notes with other users Major changes have been made to this 141st edition For the first time plant prices have been separated out in the measured works section As well as an overhaul of prices several new items have been added including Two new cost models for a stand alone private patient ward within a larger hospital complex and an extra care home An expanded range of ACO drainage channels Precast concrete Perfect Manholes by CPM Shower wall laminated panelling walling An expanded range of architectural pre finished blockwork along with the standard features you have come to expect from SPON S ARCHITECTS AND BUILDERS PRICE BOOK 20 000 prices for the most frequently specified items the majority with labour constants and detailed build ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates daywork cost limits and allowances property insurance and professional fees plus useful formulae design criteria and trade association addresses Updated free of charge two or three times a year see inside for registration details Updates are available online at www.pricebooks.co.uk Other titles in the Spon s Price Book Series SPON S MECHANICAL AND ELECTRICAL SERVICES PRICE BOOK 2016 SPON S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2016 SPON S EXTERNAL WORKS AND LANDSCAPE PRICE BOOK 2016 **Spon's Architects' and Builders' Price Book (Annual)** Davis, Belfield and Everest,1981-01-01 *Spon's Architects' and Builders' Price Book 2022* AECOM,2021-09-23 A range of factors are all combining to propel input cost inflation Higher international logistics costs returning demand from industry workload and higher global metals prices are some of the ingredients to quicker building cost inflation Whilst some EU materials exporters to the UK are adjusting to

Brexit other EU exporters initially smaller or specialist firms hit proportionally harder are now deciding not to supply the UK at all because the additional red tape involved makes it not commercially viable If this trend replicates across the whole EU to UK supply chain visible disruption and higher prices are likely until other sources of supply begin to increase in volume and step in to address these supply issues Among other exporters continuing to supply the UK significant price increases are being applied to cover the permanent Brexit non tariff barriers and additional administrative processes SPON S ARCHITECTS AND BUILDERS PRICE BOOK 2022 compiled by AECOM still provides the most accurate detailed and professionally relevant construction price information for the UK Its unique Tender Index updated through the year 2015 100 gives an ongoing reality check and allows you to adjust for changing market conditions Although it suits a wide range of project sizes this is the only price book which sets out a detailed cost base for contracts exceeding 4 000 000 in value Use the access code inside the front cover of the book to get set up with an ebook of this 2022 edition on the VitalSource Bookshelf platform available for access and use until the end of December 2022 As well as an overhaul of prices 145 new items have been added including Two new Cost Models for school refurbishment Primary Healthcare Fit Out Plus expanded range of cast iron rainwater goods expanded range of matwells expanded range of vinyl floor finishes Ecotherm insulation Along with the standard features you have come to expect from SPON S ARCHITECTS AND BUILDERS PRICE BOOK 20 000 prices for the most frequently specified items the majority with labour constants and detailed build ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates daywork cost limits and allowances property insurance and professional fees plus useful formulae design criteria and trade association addresses Updates free of charge twice a year see inside for registration details Updates are available online at www.pricebooks.co.uk **Spon's Architects' and Builders' Price Book 2021** AECOM,2020-09-27 UK construction supply chain firms face an array of risks going into 2021 as fallout from the COVID 19 crisis not least the effect of social distancing rules on site productivity But underlying construction demand remains broadly in place for the expected medium term SPON S ARCHITECTS AND BUILDERS PRICE BOOK 2021 compiled by AECOM still provides the most accurate detailed and professionally relevant construction price information for the UK Its unique Tender Index updated through the year 2015 100 gives an ongoing reality check and allows you to adjust for changing market conditions Although it suits a wide range of project sizes this is the only price book which sets out a detailed cost base for contracts exceeding 4 000 000 in value Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource Bookshelf platform available for access and use until the end of December 2021 As well as an overhaul of prices several new items have been added including a London fringe office cost model a higher education refurbishment cost model Pecafile permanent formwork and an expanded range of cast iron rainwater products along with the standard features you have come to expect from SPON S ARCHITECTS AND BUILDERS PRICE BOOK 20 000 prices for the most frequently specified items the majority with labour constants and
