Manhattan In Reverse Peter F. Hamilton, 2012-02-28 A major collection of short fiction from Peter F Hamilton New York Times bestselling author of *Pandora's Star* *The Dreaming Void* and many other epic science fiction novels including a brand new novella starring detective Paula Myo Fans of the Commonwealth Saga will enjoy the return of Paula Myo the genetically engineered police investigator whose single minded pursuit of justice runs up against a postwar citizenry eager to forget old crimes In the all new novella *Manhattan in Reverse*

Paula is dispatched to the backwoods planet of Menard after a docile supposedly nonintelligent alien species attacks peaceful human settlers. Menard may have to be evacuated something the planet's corporate owners and human populace are prepared to resist perhaps with targeted aggression. Violence hits closer to home in *The Demon Trap* in which Paula's investigation of a gruesome act of terrorism leads into unexpected political, technological, and philosophical waters threatening the course of human evolution. Time travel has never been so tricky or so deadly as it is in *If at First* in which Metropolitan Police detective David Lanson finds himself matching wits with a sociopath who might very well be from the future or at least a future. *Blessed by an Angel* is set in the Commonwealth Universe of the Void trilogy and features an alien visitor who offers the local human population a chance at paradise. But one species' paradise may be another's hell. Three other thrilling pieces round out the collection and showcase Peter F. Hamilton's ability to weave scientific speculation into very human storytelling. **Engineering News**, 1907
