“Cross-border controlled deliveries from a judicial perspective”

1. Introduction

This Issue in focus provided brief background information for the discussions during Workshop No. 1 “Cross-border controlled deliveries from a judicial perspective” in the context of the strategic meeting on drug trafficking held by Eurojust on 29 and 30 September 2014.

Following a short explanation of the reasons for the selection of this topic and the methods followed to prepare the background information (Section 2), this paper is structured into two main sections focusing on:

- **Section 3** - Analysis of the replies to the **questionnaire on controlled deliveries to all Member States** and Norway to identify main issues encountered in judicial cooperation in this field and to gather the views of the national authorities on the role played by Eurojust and Europol in controlled deliveries
- **Section 4** - Analysis of the replies to a **question asked of all Eurojust National Members** to establish whether they have exercised their powers to authorise and coordinate controlled deliveries in accordance with Articles 9c(1)(d) and 9d(a) of the Eurojust Decision.

Additionally, the **Annex** to this Issue in focus includes a table that was drafted by collating selected information from the replies to the questionnaires and by information available from other sources (Europol, the EMCDDA and the EJN). This compendium covers two main areas:

- Whether a Mutual Legal Assistance (MLA) request is required (before or after the controlled delivery);
- Which authority should be contacted (central or not).

The potential usefulness of this work was discussed by the practitioners participating in the strategic meeting and further validated after the strategic meeting in view of its distribution among interested practitioners.

2. Background, scope and methods

The Implementation Report concluded that Eurojust has limited experience as regards the involvement of its National Members in authorising and coordinating controlled deliveries. On 28 January 2014, the College of Eurojust considered the findings of the Implementation Report and decided that Eurojust should identify methods of increasing assistance to Member States in the area of controlled deliveries, in particular by gathering and disseminating best practice and obstacles in judicial cooperation in this area. As a consequence, on 18 March 2014, Eurojust circulated the two questionnaires mentioned above, the replies of which are analysed in the following two sections.

Further efforts were made to elaborate a practical compendium from the replies to the questionnaires and the available sources (see Annex) that could be used by prosecutors to facilitate cases of cross-border controlled deliveries.

Handbook of Communication in the Legal Sphere Jacqueline Visconti, 2018-09-24 This volume explores communication and its implications on interpretation vagueness multilingualism and multiculturalism It investigates cross cultural perspectives with original methods models and arguments emphasizing national EU and international perspectives Both traditional fields of investigations along with an emerging new field Legal Visual Studies are discussed Communication addresses the necessity of an ongoing interaction between jurilinguists and legal professionals This interaction requires persuasive convincing and acceptable reasons in justifying transparency visual analyses and dialogue with the relevant audience The book is divided into five complementary sections Professional Legal Communication Legal Language in a Multilingual and Multicultural Context Legal Communication in the Courtroom Laws on Language and Language Rights and Visualizing Legal Communication The book shows the diversity in the understanding and practicing of legal communication and paves the way to an interdisciplinary and cross cultural operation in our common understanding of legal communication This book is suitable for advanced students in Linguistics and Law and for academics and researchers working in the field of Language and Law and jurilinguists *The Oxford Handbook of English Law and Literature, 1500-1700* Lorna Hutson, 2017-06-29 This Handbook triangulates the disciplines of history legal history and literature to produce a new interdisciplinary framework for the study of early modern England Scholars of early modern English literature and history have increasingly found that an understanding of how people in the past thought about and used the law is key to understanding early modern familial and social relations as well as important aspects of the political revolution and the emergence of capitalism Judicial or forensic rhetoric has been shown to foster new habits of literary composition poetry and drama and new processes of fact finding and evidence evaluation In addition the post Reformation jurisdictional dominance of the common law produced new ways of drawing the boundaries between private conscience and public accountability Accordingly historians critics and legal historians come together in this Handbook to develop accounts of the past that are attentive to the legally purposeful or fictional shaping of events in the historical archive They also contribute to a transformation of our understanding of the place of forensic modes of inquiry in the creation of imaginative fiction and drama Chapters in the Handbook approach from a diversity of perspectives topics including forensic rhetoric humanist and legal education Inns of Court reveals drama poetry emblem books marriage and divorce witchcraft contract property imagination oaths evidence community local government legal reform libel censorship authorship torture slavery liberty due process the nation state colonialism and empire **The Prosody of Formulaic Sequences** Phoebe Lin, 2018-09-20 To apply the same approaches to analysing spoken and written formulaic language is problematic to do so masks the fact that the contextual meaning of spoken formulaic language is encoded to a large extent in its prosody In *The Prosody of Formulaic Sequences* Phoebe Lin offers a new perspective on formulaic language arguing that while past research often treats formulaic language

as a lexical phenomenon the phonological aspect of it is a more fundamental facet This book draws its conclusions from three original empirical studies of spoken formulaic language assessing intonation unit boundaries as well as features such as tempo and stress placement Across all studies Lin considers questions of methodology and conceptual framework The corpus based descriptions of prosody outlined in this book not only deepen our understanding of the nature of formulaic language but have important implications for English Language Teaching and automatic speech synthesis

Quality Management in Forensic Science Sean Doyle,2018-11-20 Forensic science has been under scrutiny for some time since the release of the NAS report in 2009 The report cited the need for standardized practices and the accreditation of crime labs No longer can the forensic community take the position that cross examination in a courtroom will expose weaknesses in methodology and execution Quality Management in Forensic Science covers a wide spectrum of forensic disciplines relevant ISO and non ISO standards accreditation and quality management systems necessary in any forensic science laboratory Written by a globally well respected forensic scientist with decades of experience in the forensic science laboratory and on the stand as an expert witness who is also a Fellow of both the Royal Society of Chemistry and the Chartered Society of Forensic Sciences This book will be a must have resource for all forensic science stakeholders particularly law enforcement agents and lawyers less familiar with the impact of quality management on the reliability of scientific evidence A comprehensive multidisciplinary reference of scientific practices for use in the forensic laboratory Coverage from DNA to toxicology from trace evidence to crime scene and beyond Extensive review of ISO and non ISO standards accreditation QMS and much more Written by a foremost forensic scientist with decades of experience in the laboratory and as an expert witness
