Britain. Land Registry,2007 H M Land Registry was established in 1862 as a government department in its own right it became an executive agency in 1990 and a trading fund in April 1993 Its main aims include to maintain and develop a stable and effective land registration system throughout England and Wales and to guarantee title to registered estates and interests in land This annual report and accounts reviews the Registry s activities objectives and performance during the year ending March 2007 The Offshore Nation Atul Vashistha,Avinash Vashistha,2005 On patterns of outsourcing in service industries and their overseas marketing a study *Outsourcing State and Local Government Services* John O'Looney,1998-11-19 Should we be doing or trying to do everything ourselves or might it be better to contract some tasks out to others Could they do them better and cheaper than we can More and more state and local governments are asking these questions and while there are many answers on the Federal level these answers often don t apply lower down the line Nevertheless it is evident that contracting out is often the better strategy but how best to go about it What are the benefits and what are the hidden risks Dr O Looney s book provides precisely the guidance that state and local managers need first how to decide to outsource a government service then step by step how to proceed Based on extensive interviews and other research O Looney takes managers through the intricacies of contract outsourcing and administration but in doing so he makes clear that he appreciates the importance of government His book is not an argument for privatization as so many other books are rather it is an affirmation of government and the benefits of its many services Readers will find theory and advice on the services that are most suitable for contracting out a listing and review of the components of a high quality analysis including the analysis of often overlooked political organizational and functional aspects of government advice on how to go from deciding to outsource to actually designing implementing and monitoring a contract in situations that could prove hazardous to the livelihoods of government workers He also discusses the changes that need to be made in the organizational culture management and employee training as a result of the change to a contract based system of providing services the considerations in designing work specifications and other critical aspects of the government vendor relationship and how ideal contracting processes and ideal contracts can differ according to the nature of the service being contracted The result is a thorough and highly practical volume for executives and managers in the public sector and for those who hope to do business with them *Parliamentary Debates (Hansard)*.
