Architect's Legal Handbook Anthony Speaight, Gregory Stone (MA.), 1990 **The Architect's Legal Handbook** Edward Jenkins, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1889 edition Excerpt
CHAPTER XV 116 Dilapidations Voluntary And Permissive Waste 117 Liability of tenants for life 118 Liability of tenants for years 119 Accidental fire 120 Covenants to repair 121 Measure of damages 122 The right to light 123 The right to prospect 124 Party walls We have had grave doubts as to the advisability of offering any remarks on the three subjects noticed in the following chapter Dilapidations Ancient Lights and Party Walls We have been assured that questions on one or other of these points frequently occur and that consequently a few remarks on them would be of service to Architects That such questions do constantly arise we feel sure but we are not so sure that we can in the space of the present work impart to our readers any profitable knowledge on the subject It was necessary for the comprehension of the special subject treated in this little work that we should first endeavour to impart to our readers some instruction in the elementary principles of contracts generally but that instruction would hardly fit them for the comprehension of the three subjects above mentioned and indeed to properly introduce them a separate treatise would be necessary in order to effect any good practical purpose On the other hand such a book would of necessity be of too technical a character for the ordinary unprofessional reader However as we are assured that a few remarks would be acceptable we offer the following which we have endeavoured to make as general as possible for what they may be worth Those on dilapidations we have taken from Smith's Landlord and Tenant and for those on ancient rights and party walls we are mainly indebted to Gale on Easements n6 The technical term for 1985
Legal Handbook for Architects, Engineers and Contractors Albert Dib, James K. Grant, 1985 This guidebook for construction law practitioners analyzes the legal issues surrounding construction failures Liability questions financial protection and proposals to reduce risk of failures is discussed in the work **Catalogue of Books on the Useful Arts (class 600 of Dewey's Decimal Classification) in the Central Library** Newcastle upon Tyne (England). Public libraries, Basil Anderton, 1903 *Constructing Professional Discourse* Concepción Orna-Montesinos, 2012-01-17 This book explores the fascinating role that language plays in the construction of non verbal objects by mapping out the ontological meaning of the specialised concepts and the domain specific knowledge embedded in them In doing so it provides a comprehensive linguistic insight into the discourse of professional domain specific communities and hence into the communication practices and procedures of those communities In this respect the book offers a response to the claims made by many of the most influential applied linguists today such as Vijay Bhatia 1993 2004 John Swales 1990 2004 or Ken Hyland 2002 among others who have consistently defended the need for applied linguistic research into the textual generic and social perspectives on the under researched interrelatedness of the discursal and professional practices of a discipline Specifically this book

provides readers with an integrative multi perspective approach to the study of professional domain specific discourses While it mainly draws on the tenets of genre theory and discourse semantics it also nurtures from the theoretical and empirical foundations of applied linguistics cognitive linguistics corpus linguistics and ontological engineering The book starts from the analysis of domain specific texts as final written products with specific lexico grammatical semantic and rhetorical features to later enquire into the written products as textual artefacts closely linked to the social context of production and interpretation of the text This integrative approach provides fresh new insights into the way the processes of writing are affected by the community specific institutional and socio historical circumstances in which domain specific texts are produced
