Artificial Intelligence And Machine Learning:

BASICS OF ARTIFICIAL INTELLIGENCE & MACHINE LEARNING Dr Dheeraj Mehrotra,2019-06-03 The concept of Artificial Intelligence AI Machine Learning ML has been in practice for over years with the advent of technological progress Over time it has blended our lives through nearly every narration of learning teaching enjoyment normal routine operations and what not The aspect delivers a common understanding of the topics with reference to it making an impact on our lives with a better framework of technology affecting our lives in particular Let us look up to science for a change to be brought about in us Let us create awareness of making technology available to people in a broader sense As that happens people who are responsible need to be told about the use and misuse of the same As we lead our lives we come across the fact that AI Robotics and Learning Machines seem to be the household topic of discussion Earlier AI was perceived to be reserved for only Geniuses or Researchers or the computer community but it very aptly integrates and impacts each and every aspect of our lives Knowingly or unknowingly it has become intellectually influential in shaping our thoughts actions and the day to day chores
