**Middle East** Kingshuk Chatterjee, 2023-06-14 The region of the Middle East is beset with a structural crisis of which particular crises confronting the component countries happen to be merely subsets The real questions revolve round the issue of how long can the present dispensations of power and social structures in the region forged in the twentieth century first half or second can last in the twenty first when they no longer reflect the realities on the ground This volume aims to look at some of the issues to see how the faultlines in the region appear in 2020 to both those in the region and those outside it The volume limits itself to only Levant and the Gulf and looks at the tensions within and policies both foreign and domestic of some of the key regional players which have regional repercussions It also looks at the policies of some of the global players operating in the region that have bearing on the regional faultlines Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan [Faultlines](#) South African Human Rights Commission, 2000 **Faultlines**

,2008 Terrorism and internal security in India      Re: Constitutions Beka Feathers,2021-08-03 The next volume in the World Citizen Comics series Re Constitutions explains the role constitutions play in how government is structured and provides context for the modern issues that arise from these documents Marcus is stumped by a summer assignment to write an essay on what it means to be a citizen He is surprised to hear from people in his community that constitutions play an important role when it comes to citizenship they can even affect whether you feel like you belong in your country or not From a Kosovo Albanian neighbor to a Rwandan exchange student and even in his own family history Marcus discovers stories of how constitutions including the U S Constitution shape the political landscape and our daily lives From Beka Feathers an expert in post conflict institution building and Kasia Babis an accomplished political cartoonist comes a graphic novel that gives context to the modern issues that arise from constitutions With historical examples from all over the world Re Constitutions examines how this essential document defines a nation's identity and the rights of its citizens This book is part of the World Citizen Comics series a bold line of civics focused graphic novels that equip readers to be engaged citizens and informed voters      **Why the People** Beka Feathers,2022-06-14 This witty and well argued graphic novel is a must have for anyone wanting to learn what power we the people actually have in a democracy Why the people Is democracy actually the best form of government Does it ever work like it is supposed to Join Lin and Julie in the middle of an airport as they wonder aloud how America can ever be a democracy when citizens seem to disagree about everything With them we are whisked through political history and journey through different systems of power including monarchy theocracy dictatorship and oligarchy Beka Feathers and Ally Shwed shine a bright light on power justice and the promise of true democracy      Fault Lines George Megalogenis,2003 No Marketing Blurb      Faultlines Jeffrey Simpson,1993      **University of Washington Publications in Geology** ,1924      **A Firehose of Falsehood** Teri Kanefield,2024-02-13 Lies destroy Disinformation tears at the fabric of democracy A Firehose of Falsehood The Story of Disinformation breaks down disinformation tactics and offers tools for defending and restoring truth From Darius I of ancient Persia 522 486 BCE to blood libel of the Middle Ages to Soviet disinformation tactics and modern election deniers Teri Kanefield and Pat Dorian show how tyrants and would be tyrants deploy disinformation to gain power Democracy which draws its authority from laws instead of the whim of a tyrant requires truth For a democracy to survive its citizens must preserve and defend truth Now that the Internet has turned what was once a trickle of lies into a firehose the challenge of holding on to truth has never been greater A Firehose of Falsehood offers readers these necessary tools      *At Freedom's Door* James L. **the Geological Society of London** Geological Society of London,1909 Vols 1 108 include Proceedings of the society separately paged beginning with v 30 *Faultlines of Nationality Conflict* Bill Frelick,1994 This report is based largely on site visits to Armenia Azerbaijan and Nagorno Karabakh in September 1993 by the United States Committee for Refugees USCR It concentrates on the humanitarian toll taken by the conflict since it began in 1988 in the hope of creating a balanced understanding of the results of the violence which will in turn stimulate material assistance to the needy and foster peace Nagorno Karabakh is seen as epitomizing the conflict between two opposing principles of international law the notion of self determination versus the inviolability of borders A detailed history of the conflict is offered both in the text and in a useful chronological table of events The report proceeds with an analysis of the humanitarian needs associated with the conflict pointing out that tens of thousands of refugees and displaced persons are at grave risk The presence of large numbers of uprooted people in Armenia and Azerbaijan is thought to contribute to hypernationalism in both countries The study concludes that the intervention of an outside force is unlikely because the international community has already shown its willingness to tolerate massive human rights abuses including ethnic cleansing provided the abuses remain localised as they are in this case Both the conflicting parties however need to be held accountable for violations of humanitarian law in war and basic human rights standards The U S response is criticized for favouring Armenia in this regard Taking no position on the territorial dispute USCR urges the conflicting sides to stop using force in particular to stop forcibly displacing civilians Urgent provision for the newly uprooted is sought in a series of recommendations addressed to the leaders of Azerbaijan Armenia Nagorno Karabakh and the U S Government **Law, Lawyers and Race** Mathias Möschel,2014-09-15 Critical Race Theory CRT is virtually unheard of in European scholarship especially among legal scholars *Law Lawyers and Race* Critical Race Theory from the United States to Europe endeavours to fill this gap by providing an overview of the definition and consequences of CRT developed in American scholarship and describing its transplantation and application in the continental European context The CRT approach adopted in this book illustrates the reasons why the relationship between race and law in European civil law jurisdictions is far from anodyne Law plays a critical role in the construction subordination and discrimination against racial minorities in Europe making it comparable albeit in slightly different ways to the American experience of racial discrimination Anti Semitism Islamophobia anti Roma and anti Black racism constitute a fundamental factor often tacitly accepted in the relationship between law and race in Europe Consequently the broadly shared anti race and anti racist position is problematic because it acts to the detriment of victims of racism while privileging the White Christian male majority This book is an original exploration of the relationship between law and race As such it crosses the disciplinary divide furthering both legal scholarship and research in Race and Ethnicity Studies **Congressional Record** United States.
