the forces working against the pilot project of Europe will gain power very fast if the unification success slows down And as the recent developments in Greece show the vision of the final goal itself can well change during this exciting quest Apart from providing the pieces of a mosaic on which a more general theory can be built this book can be read as a collection of experiences mistakes as well as triumphs which should help the European learning process The structure of the book mirrors Europe s diversity specific country studies are combined with more general chapters and quantitatively oriented econometric work is combined with qualitatively oriented sociological studies
