ordinary family plans to spend a large part of the daily wages for food If times are bad we can live in smaller houses and be very comfortable We can wear the same clothes twice as long as we expected to and still not suffer from the cold But with food it is very different We must constantly provide ourselves with a nourishing diet or our strength fails health gives way and great suffering is the final result For a useful and happy existence nourishing food is of the first importance During the past few years we have heard more and more complaints about the hardships which millions of people in America have suffered because of the high cost of nourishing food During the period when the country was young there was plenty of food The vast fields of the South and West were covered by the richest earth which rewarded a small effort with a wonderful harvest On the plains beyond the Mississippi millions of cattle and sheep wandered and fed at will providing us with the best of meat which cost little but the effort to bring it to market Gradually this has changed The great cattle ranges are no more Villages and farmhouses dot the prairies where a few years ago there was not even a fence About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
