McKinsey Case :

Case Interview Secrets Victor Cheng, 2012 Cheng a former McKinsey management consultant reveals his proven insider method for acing the case interview

Case Interview Frameworks Robert Steiner, 2015-08-30 You often hear in discussions about case interviews that you should not use standard business frameworks and concepts at all because they just don't fit to the specific case question and interviewers don't like it when candidates use standard frameworks to solve cases. However, when challenging these shallow, generalized, and popularized statements, there aren't any of those arguments remaining on the table. It is most definitely true that you can't crack a realistic interview case by relying solely on standardized frameworks, but all those business frameworks and concepts are extremely helpful templates which you can and even should put into your toolbox and use them whenever appropriate, if not to the full extent, at least partly. Such a standard business framework is just a tool, and the tool itself is rarely good or bad; it mainly depends on how and for which purpose you use it. With this book, you achieve all of the following: Get a profound overview of the most important business concepts and frameworks needed in consulting case interviews. Really understand those business concepts and frameworks instead of possessing only knowledge of dangerous half-truths. Impress your interviewer on how structured and therefore client-friendly you tackle tough case interview questions. Quickly learn how to actually apply those frameworks to concrete business situations instead of just having a shallow theoretic knowledge of them. Be more MECE (mutually exclusive, collectively exhaustive) in setting up your overall case structure at the beginning of your case interview. Better structure your answers to particular questions later on in your case interview, again being more MECE. Save tons of time by having high-quality content from 10 years of consulting and interview experience together in one single book. Significantly reduce the risk of losing a tier 1 consulting firm job offer because you were not structured enough in your interview, and we all know how important it is to be ABS (Always Be Structured).
