How can you measure Operational Excellence in a systematic way? What about Operational Excellence Analysis of results? Think about the kind of project structure that would be appropriate for your Operational Excellence project: should it be formal and complex, or can it be less formal and relatively simple? How much are sponsors, customers, partners, stakeholders involved in Operational Excellence? In other words, what are the risks if Operational Excellence does not deliver successfully? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role. In EVERY company, organization, and department. Unless you are talking about a one-time single use project within a business, there should be a process.
