**Invoice Verification for SAP** Stephen Birchall, Invoice verification in SAP is an often misunderstood subject despite its central role in contributing to a company's fiscal health Adding to the confusion is the fact that it falls between two teams the

MM team and the FI team and each assumes that the other is responsible for the design and configuration of Invoice Verification Although the process can be streamlined many organizations get the design and use of invoice verification wrong resulting in vendors not being paid and accounts being placed on stop which prevents further Purchase Orders from being processed until the vendor has been paid The aim of this book is to help readers fully understand the invoice verification process particularly the changes in ERP 6 0 If they get the design right then the process will run smoothly and vendors will be paid on time not too early either User input can be kept to a minimum and much of the process can be automatic There are one or two basic mistakes that are made during the design of the process and the guide highlights these and many other confusing areas and describes in simple terms the options available along with the consequences of getting it wrong
